PART I.

Revenue Money Order System.

No. R. 1405-13—L. R. 631-15-2, DATED 2ND AUGUST 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 17210, dated 27th June 1916, from the Revenue Commissioner in Mysore, enquiring at the instance of the Deputy Commissioner, Shimoga District, whether the observation made in paragraph 3 of Government Order No. R. 4607-15—L. R. 312-14-4, dated 10th November 1915, that the continuance of the Revenue money order system renders it unnecessary to authorize payment of Land Revenue in any Taluk Treasury, supersedes Revenue Rule 91.

Order No. R. 1405-13—L. R. 631-15-2, dated 2nd August 1916.

The rule referred to contemplates payment of "Land Revenue" in any of the Treasuries in the district in which the lands in respect of which payments are to be made are situate, while the representation made at the Representative Assembly with reference to which the observation in question was made, is for an authorization of such payments being made into any of the Taluk Treasuries of the State, irrespective of the district in which the lands may be situated.

2. It is this general authorization which was considered unnecessary in the Government Order referred to above as the money order system prevails.

3. In this view Revenue Rule 91 remains unaffected.

The Irrigation Cess Fund Budget Estimates.

No. R. 2399-409—L. R. 633-15-4, dated 26th August 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 16655, dated 17th June 1916, from the Revenue Commissioner in Mysore, forwarding a copy of his office Memorandum No. 16646-53, dated 17th June 1916, reviewing and consolidating the budget estimates of receipts and expenditure under the Irrigation Cess Fund received from the several districts for the year 1916-17 (Accompaniment No. I).

2. Letter No. 6330, dated 30th June 1916, from the Chief Engineer of Mysore, forwarding the detailed budget estimates under the above fund for the year 1916-17, with his remarks thereon (Accompaniment No. II).

3. Memo No. 7310, dated 21st July 1916, from the same officer, forwarding a copy of his letter No. 7309, dated 21st July 1916, to the Revenue Commissioner in Mysore, stating that 40 per cent of the expenditure for the maintenance of river channels in the Mysore and Hassan Districts may be borne by the State Funds (Accompaniment No. III).

Order No. R. 2399-409—L. R. 633-15-4, dated 26th August 1916.

The budget estimates have been submitted to Government about a month and half after the due date.

2. The principle of limiting the ordinary expenditure of a district to 75 per cent of its receipts, enunciated in Government Order No. R. 2157-68—L. R. 650-13-4, dated 12th September 1914, and emphasised in paragraph 9 of Government Order No. R. 2318-28—L. R. 666-14-3, dated 27th August 1915, has not been followed in the preparation of the budget estimates, except in the Mysore, Hassan and Kadur Districts. Nor is any explanation given for not adopting the prescribed procedure in the case of the other districts.

3. *Receipts.*—The estimated receipts for the whole State for the year 1916-17 are Rs. 2,76,863 as against Rs. 2,72,515-12-5 of the preceding year, as detailed below :—

	Rs.
Bangalore District	27,434
Kolar „	39,274
Tumkur „	36,564
Mysore „	46,566
Hassan „	29,498
Shimoga „	60,977
Kadur „	22,345
Chitaldrug „	14,205
Total	2,76,863

Compared with the corresponding figure of the previous year, there is an increase in the case of all the districts, except Bangalore and Tumkur, the increase in the district of Kadur being especially marked.

The opening balance on 1st July 1916, as per Comptroller's estimate (*Vide* his letter No. 9290—L. A. D. 1175, dated 2nd June 1916), is Rs. 3,99,000. To this must be added a sum of Rs. 52,146 being the cost of establishment, tools and plant, roughly calculated at 18 per cent of the expenditure, debitable to State Funds and ordered to be shown both on the receipts and expenditure sides in Government Order No. Fl. 2592-4—G. F. 43-15-2, dated 10th December 1915. The probable total receipts for 1916-17 thus stand at Rs. 7,28,009 or Rs. 7,28,000 in round figures as against Rs. 5,24,000 for the preceding year.

No. R. 2399-409--L. R. 633-15-4, dated 26th August 1916.

4. *Expenditure.*—The following errors in the figures may be corrected :—

(1) The charges for maintaining the river channels in the Mysore District is estimated at Rs. 52,451, but this ought to be Rs. 52,541.

(2) Again the expenditure proposed by the Revenue Commissioner for fresh works in the Kadur District during the current year is Rs. 12,000, but the correct figure is Rs. 11,700.

The expenditure proposed in the case of the Bangalore, Kolar, Hassan and Shimoga Districts exceeds that of the previous year by Rs. 21,092; 15,000; 3,573 and 30,800; respectively.

5. The changes proposed by the Chief Engineer are as follows :—

(i) reduction of the grant for fresh works in the Bangalore, Tumkur and Shimoga Districts by Rs. 3,092; 37 and 300 respectively;

(ii) enhancement of the allotments for the Mysore, Hassan and Chitaldrug Districts by Rs. 459, 427 and 525 respectively,

(iii) grant of an additional sum of Rs. 2,000 to the allotment provided for by the Revenue Commissioner towards the repairs of the Marikanave channels;

(iv) contribution to the Irrigation Cess Fund out of the State Funds to be taken at 40% of the expenditure to be incurred for the maintenance of the river channels in the Mysore and Hassan Districts.

These proposals are approved.

6. The budget estimates of receipts and expenditure under the Irrigation Cess Fund sanctioned will accordingly be as shown in the appended statement, the excess expenditure of Rs. 59,218-9-7 as detailed in column 9 thereof being met, as a special case, from the General Fund this year in accordance with clause (2) of paragraph (1) of the Government Order of 12th September 1914.

7. The question of sanctioning a grant from the State Funds for the maintenance of the Marikanave channels proposed by the Revenue Commissioner is reserved for separate orders.

ACCOMPANIMENT No. I.

Letter No. 16655, dated the 17th June 1916 from K. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

I have the honor to forward herewith a copy of this Office Memorandum No. 16646-53, dated 17th June 1916, reviewing and consolidating the budget estimates of receipt and expenditure for the year 1916-17, under the Irrigation Cess Fund received from the districts. A copy of the consolidated estimate has been forwarded to the Chief Engineer of Mysore as usual.

Official Memorandum No. 16646-53, dated 17th June 1916.

Subject.—

The marginally noted communications from the Deputy Commissioners and the Presidents of District Boards submitting the budget estimates of receipts and expenditure under the Irrigation Cess Fund for year 1916-17.

I. Receipts.

The estimated receipts for the several districts are as follows:—

		Rs.
Bangalore	...	27,454
Kolar	...	39,274
Tumkur	...	36,564
Mysore	...	46,566
Hassan	...	29,498
Shimoga	...	60,977
Kadur	...	22,345
Chitaldrug	...	14,205
Total	...	2,76,883

Including the opening balance of Rs. 3,99,000 as intimated by the Comptroller in his letter No. 9290—L. A. D. 1175, dated the 2nd June 1916, the probable assets of the fund on 1st July 1916, will be Rs. 6,75,883. If a sum of Rs. 52,185, being the cost of establishment, tools and plant, is also added on to this fund from the State Funds in accordance with the instructions conveyed in Government Order No. Fl. 2592-4—G. F. 43-15-2, dated the 10th December 1915, the gross sum will be Rs. 7,28,068. If 25 per cent of the estimated receipts, *viz.*, Rs. 69,220-12-0 be reserved for the General Fund, there will be the following sums available for expenditure out of the receipts for the year:—

		Rs.	a.	p.
Bangalore	...	20,590	8	0

No. R. 2399-409—L. R. 633-15-4, dated 26th August 1916.

II. Expenditure.

The estimates received from the Presidents of District Boards for expenditure in the several districts are as shown below:—

District	Incomplete works	Fresh works		Lump sum provision for unforeseen works	Total	Establishment, tools and plant	Grand Total
		Tanks	River channels				
1	2	3	4	5	6	7	8
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Bangalore	6,000	37,092	.....	.... .	43,092	7,756	50,848
Kolar	5,000	25 000	.....	.. ..	30,000	5,400	35,100
Tumkur	3.478	20,059	.. . .	6,000	29,537	5,316	34,853
Mysore	7,000	17,000	52,457	.. .	76,451	13,761	90,212
Hassan	1,000	7,750	16,823	.. . .	25,573	4,603	30,176
Shimoga	5,000	42,800	.... .	. . .	47,800	8,604	56,404
Kadur	3,000	12,000	. . ..	... ..	15.000	2,700	17.700
Chitaldrug	1,200	9,275	12,000	. ...	22,475	4,045	26.520
Total ..	31 678	1,70,976	81,271	6,000	2,89,928	52,185	3,42,113

Except in the Bangalore, Mysore, Kadur and Chitaldrug Districts the amounts proposed for expenditure are slightly in excess of the estimated receipts for the year. The amount proposed to be spent in the Kadur District is less than 75 per cent of the receipts in that district. The heavy expenditure as compared with the receipts in the Mysore and Chitaldrug Districts is due to the expenditure in respect of the Cauvery channels in the Mysore district and the Marikanve channels in the Chitaldrug District. A portion of the amounts required in respect of the river channels in the Mysore and Hassan Districts is debitable to the State Funds in accordance with para 2 of Government Order No. R. 2157-68—L. R. 630-13-4, dated the 12th September 1914. It is desirable that a portion of the sum provided for the maintenance of the channels of the Marikanve tank also should be debited to the State Funds. A total grant of Rs. 3,42,113 may be made out of the funds except perhaps with a reduction of Rs. 15,000 out of the provision for fresh works and Rs. 2,700 out of that for establishment, tools and plant.

ACCOMPANIMENT No. II.

Letter No. 6330, dated the 30th June 1916, from Rajasabhabhushana Karpur Shrinivasrao, Esq., B.S.C., L.C.E., Chief Engineer of Mysore, to V. R. Thyagaraja Iyer, Esq., M. A., Secretary to Government, Revenue Department.

In continuation of this office No. 4795, dated the 20th May 1916, I have the honour to forward herewith, for orders, the detailed budget estimates of the several districts under "Irrigation Cess Fund" for the year 1916-17, together with an office note thereon.

Office Note on Irrigation Cess Fund Budget Estimates for 1916-17.

Reference.—Revenue Commissioner's Official Memorandum No. 16646-63, dated the 17th June 1916, reviewing and consolidating the budget estimates under the above fund for 1916-17.

The Revenue Commissioner has proposed to allot a sum of Rs. 3,42,113 for expenditure under this head during 1916-17. The slight variations noticeable between the set of figures given in the review and those proposed at the end of this note are explained hereunder:—

Bangalore District.—The grant for fresh works may be reduced by Rs. 3,000 and the same made available for the annual maintenance of the Marikanve channels, for which a sum of Rs. 14,000 is required against Rs. 12,000 proposed by the Revenue Commissioner.

Mysore District.—The grant required for river channels is Rs. 52,541 and not Rs. 52,451 as stated by the Revenue Commissioner. A sum of Rs. 459 is added to fresh works to round of the figures.

Hassan District.—A sum of Rs. 427 is added to fresh works to round off the figures.

Chitaldrug District.—A sum of Rs. 525 is added to the amount shown under fresh works to round off the figures.

No. R. 2399-409—L. R. 633-15-4, DATED 26TH AUGUST 1916.

The grant for 1916-17 may be fixed at Rs. 3,42,200 as shown below :—

ACCOMPANIMENT III.

Letter No. 7309, dated the 21st July 1916, from Rajasabhabhushana Karpur Shrinivasrao, Esq., B.S.C., L.C.E., Chief Engineer of Mysore, to K. Doraswami Iyer, Esq., Revenue Commissioner in Mysore.

With reference to paragraph 2 of Government Proceedings No. R. 2157-68—L. R. 630-13-4, dated the 12th September 1914, in regard to the percentage of the cost of maintenance of river channels in Mysore and Hassan Divisions to be borne by the State Funds, I have the honour to forward, for favour of an expression of your opinion, copies of the marginally noted correspondence received from the Superintending Engineer, Southern Circle, on the subject.

1. Copy of Mysore Division Executive Engineer's No 118, dated the 28th April 1915, with copies of its enclosures.
2. Copy of Hassan Division Executive Engineer's No 93, dated the 12th February 1915, with copies of its enclosures.

2. It will be seen therefrom that the receipt from the Irrigation Cess and the expenditure on the annual maintenance of the channels in the Mysore and Hassan Districts stand as shown below :—

Division.	Receipts.	Expenditure.
	Rs.	Rs.
Mysore	22,327	52,541
Hassan	5,819	35,644

3. About 40 per cent of this expenditure is incurred on repairs to the bund and masonry works and 60 per cent on silt clearance and channel establishment, such as the pay of sowdies, I am of opinion that 40 per cent of the expenditure may fairly be borne by the State Funds.

Memo No. 7310, dated the 21st July 1916.

Copy of the above is forwarded with compliments, to the Secretary to Government, Revenue Department, for information with reference to his No. R. 7431, dated the 29th January 1916.

The file received with his U. O. No. 7, dated the 12th instant, is herewith returned.

Letter No. Per. A. C. 403, dated 8th July 1916, from the Revenue Commissioner in Mysore, submitting a copy of his review on the progress made in the several districts up to 31st March 1916, in the restoration of Minor Tanks.

(In extenso)

Order No. R. 2388-97—L. R. 42-15-33, dated 26th August 1916.

Recorded.

2. There are numerous discrepancies in the figures furnished by the Deputy Commissioners and no useful inference can be drawn from such incorrect data. In the statement appended to the Revenue Commissioner's review the serial number of the columns in the form prescribed in the Government Order of the 7th May 1915, is not followed, and consequently some errors have crept in.

3. The importance of preparing the statements accurately and submitting them on the due dates should be impressed on the Deputy Commissioners. Belated returns or reviews serve no useful purpose.

4. The Revenue Commissioner reports that most of the tanks in the Bangalore and Kolar Districts, 70% in Mysore and 40% in Chitaldrug cannot be taken up for restoration under the scheme, as the cost thereof exceeds the limit of ten times the assessment on the atchkat concerned. Government observe that orders have already been issued in the case of tanks in the Kolar District *vide* Government Order Nos. R. 8395-405—L. R. 368-15-1, dated 29th February 1916 and R. 10278-88—L. R. 368-15-3, dated 8th May 1916 and direct that special cases in the other districts deserving relaxation of the rule be submitted for their orders.

5. It is also reported that the new mode of calculating the raiyat's share of the cost is felt as a serious hardship, as the contribution leviable often exceeds the actual cost of the earthwork, which alone was recoverable from them under the old rules. Specific instances should be reported to Government for their consideration.

6. The Revenue Commissioner observes in his review that the staff of Tank Inspectors has not yet been fully given and many of those in service are not competent. The Chief Engineer is requested to take needful steps in the matter at a very early date.

7. Separate orders will issue as regards the question of investing the Deputy Commissioners of Districts with greater powers of control over the Maramat Establishment.

Subject.

The marginally noted communications from the Deputy Commissioners of the several Districts submitting statements showing the progress made in the restoration of minor tanks during the quarter ending 31st March 1916.

Letter No. 931, dated 19th May 1916	Shimoga
Letter No. 711, dated 5th June 1916	Kadur
Letter No. 283, dated 22nd April 1916	Chitaldrug

The statements were received very late from the Deputy Commissioners of Hassan, Shimoga and Kadur Districts. Their attention is invited to this office No. 13864-71, dated 17th April 1916, requiring that the statements should be submitted within fifteen days from the end of the quarter to which they relate.

The accompanying statement shows the progress made in the several districts during the quarter. Talukwar details have not been furnished for the Bangalore District. The Deputy Commissioner is requested to furnish information in future in the prescribed form. The figure 4 in column 4 of the statement for that district is inaccurate as it is the number of tanks selected for restoration during the year that has to be furnished thereunder.

In the Shimoga District ten tanks were reported to be under restoration during the half-year ending with 31st December 1915. In the present statement only one new tank is shown as under restoration and three incomplete works are shown as completed during the quarter. The Deputy Commissioner is requested to explain how the ten tanks have been disposed of.

The Deputy Commissioner, Chitaldrug District, is requested to report why the number of tanks selected for restoration is now shown as 20, while it was given as 37 in the statement for the half-year ending with 31st December 1915.

The number of tanks for the restoration of which proposals were pending at the end of the quarter, was large in the Districts of Bangalore, Kolar and Hassan.

In none of the districts was the progress during the quarter satisfactory. The reason for slack progress vary from district to district but may be generalised as follows:—

Many tanks have to be left out because the cost of restoration exceeds ten times the assessment on the atchkat. Most of the tanks in the Bangalore and Kolar Districts, 70 per cent in Mysore and 40 per cent in Chitaldrug exceed this limit.

The new mode of calculating the raiyats' share of the cost is felt as a serious hardship as the contribution leviable often exceeds the actual cost of the earthwork, for which alone they were liable under the old rules. Further the raiyats find it difficult to find hard cash.

The interference of the S. W. Monsoon and the cultivation season and then the N. W. Monsoon and again the cultivation season followed by the harvest and thrashing these tend to keep the raiyats on their own fields and at their own work.

Favourable rainfall means water in the bed and that prevents earth being taken for the bund. Several other works, *e.g.*, village improvement works, rural well works, village roads, etc., have also to be got through during this period with the same agency. This is also the season for revenue collections and District and Taluk Conferences.

The staff of Tank Inspectors has not yet been fully given and many of those appointed are not competent.

The Deputy Commissioners have not been given sufficient powers of control over the marahmat establishment.

Government Order No. R. 5042-89—L. R. 408-14-1, dated 11th December 1914, passing orders on the scheme for the construction and restoration of minor tanks in the State and directing among other things the submission by the Comptroller of detailed rules of procedure to be observed in regard to the payment of the Government share of contribution in respect of such works.

2. Correspondence ending with Memo No. 978—5032, dated the 22nd May 1915, from the Secretary to Government, Public Works Department, forwarding with his remarks letter No. 6676—G. A. I. 1196, dated the 7th May 1916, from the Comptroller, Public Works and Railway Branch, submitting detailed rules of procedure as required above.

3. Proceedings of the Special Committee constituted to consider the report on the Maramat irregularities in the Bangalore District Office.

Order No. R. 2440-87—L. R. 408-14-40, dated 29th August 1916.

In their Order No. R. 5042-89—L. R. 408-14-1, dated the 11th December 1914, the Government laid down certain rules for the restoration and construction of minor tanks which appeared as an appendix to that order and in issuing them requested the Comptroller to submit further details of procedure to be observed in regard to the payment of the Government share of the contribution referred to in the rules. The Deputy Commissioners were also requested to get the procedure regarding payments and accounts settled in consultation with the Comptroller and to facilitate the preparation of plans and estimates by other than professional agency, the Chief Engineer was requested to prepare a Manual both in English and Kannada giving simple rules and instructions regarding the preparation of plans and estimates, construction and measurement and drawing up of final certificates. The rules referred to above are more or less complete in themselves so far as works relating to tanks are concerned. In accordance, however, with the instructions issued to the Comptroller, certain rules of procedure have been framed and these after considerable discussion in the Public Works Department have now been submitted for the orders of Government.

2. In July 1914, a Sub-Committee was appointed to consider certain irregularities in the Maramat Department of the Bangalore District Office and the same Committee proposed a set of rules defining the powers and responsibilities of the several officers in the execution of district maramat works, preparation and checking of measurement bills, payment of bills, etc.

3. The Government consider that all classes of works which under the existing orders have to be executed by the District Agency and not by the Public Works Department, should come under one set of rules so that the procedure in regard to their execution may be the same and subject to concentrated scrutiny and supervision. As the rules governing the restoration and construction of minor tanks contained in Appendix A appended to the Government Order quoted above were framed after careful consideration of the necessities in each case, the Government do not consider that they require any further revision at this stage. These rules will now be embodied with others relating to procedure for check measurement bills, etc., and all the rules will apply not only to works under the Tank Restoration Scheme but also to other works now executed by the District Maramat Agency, such as petty construction and repair of the buildings of the Revenue and other Departments and also works relating to the maintenance and repairs of minor tanks which under existing orders are under the control of the Public Works Department. In paragraph 7 of the order dated 11th December 1914, it was distinctly laid down that

No. R. 2440-87—L. R. 408-14-40, DATED 29TH AUGUST 1916.

the responsibility for working the Tank Restoration Scheme will rest with the Deputy Commissioners under the control of the Revenue Commissioner In conformity with that order it is no longer necessary to have dual control over works relating to maintenance and repairs of tanks; and further as a doubt has been felt regarding the interpretation of the Government Order to the effect that the Revenue Commissioner will be responsible to Government implying that the Revenue Commissioner is to correspond with the Government in the Public Works Department, it is necessary to make it clear that the operations of the Maramat Department will be henceforth under the control of Government in the Revenue Department.

4. With these general observations, the Government will now proceed to pass orders on the several details in connection with the Tank Restoration Scheme.

5. All maramat works in the districts will be under the sole administrative charge of the Revenue Commissioner, and the procedure hereunder prescribed will apply to all maramat works including those relating to the Tank Restoration Scheme. The Comptroller's suggestion that the tank restoration works should not be started before the raiyats' contribution is recovered or the necessary agreements under Rule 10 of Appendix A of the Government Order above referred to, are executed and also before estimates are sanctioned and necessary reappropriations made, is approved; and this rule will accordingly be issued as an addendum to the appendix.

6. Two other points have been raised in connection with the procedure to be prescribed for the raiyats' contribution, *viz.*, (i) whether it is to be treated as a deposit or receipt and (ii) whether in case of savings any refund has to be made. As the additional cost is to be recovered in the same proportion as is fixed in Rule 9 no further orders in the matter seem necessary. Savings, if any, will ordinarily be credited to the estimate under which there may be excess under certain heads and cases will be rare in which savings in working up the estimates accrue to any considerable extent, justifying a refund. Discretion will, however, be given to Deputy Commissioners to recommend such refunds in special cases.

7. As regards payment of bills, various suggestions have been made and in framing the rules it is necessary to impress on all the officers concerned the necessity of prompt payment. Prompt payment depends on prompt measurement and check measurement of works. In order to ensure prompt payment it is necessary to decentralize to some extent the authority; and Government are therefore in favor of giving power to the Amildars as well as Assistant Commissioners up to a certain limit. Contracts for works below Rs. 500 may be disposed of by the Amildar himself but he should as far as possible entrust them to the villagers who would be benefited thereby. Contracts for works for Rs. 500 and above but below Rs. 1,000 may be disposed of by the Amildar with the approval of the Assistant Commissioner. Contracts for works costing Rs. 1,000 and above but below Rs. 2,000 should, wherever possible, be disposed of by calling tenders, the acceptance of which will rest with the Deputy Commissioners. Preference will be given to the resident of the village or villages concerned. Tenders should invariably be invited for the execution of all works costing more than Rs. 2,000. The disposal of contracts for such works shall rest with the Deputy Commissioner.

8. As regards the scrutiny of estimates and the powers of sanction, Rule 6 of the Rules published in Appendix A of the Government Order dated the 11th December 1914 lays down that the Executive Engineer is the scrutinising officer for estimates of Rs. 1,000 or less and the Superintending Engineer for estimates between Rs. 1,000 and Rs. 2,500 and the Chief Engineer in all other cases. The Deputy Commissioner is the sanctioning authority for all works up to Rs. 1,000 and the Revenue Commissioner up to Rs. 2,500, above which all estimates are to be submitted to Government and all works relating to such estimates should be executed by the Public Works Department. These rules will now apply not only to works under the Tank Restoration Scheme but also to all other maramat works in the districts.

9. As regards payment, Rule 15 of the Rules in Appendix A referred to above provides that bills for Rs. 500 and below may be passed by the Assistant Commissioner and for sums above that amount, by the Deputy Commissioner and made over to the Amildar for payment. The Comptroller's proposal is that the Deputy

No. R. 2440-87—L. R. 408-14-40, DATED 29TH AUGUST 1916.

Commissioners alone should be the drawing officers as the Assistant Commissioners have no establishment for examining bills. As the scheme will require more experience before extended powers are granted, the Government consider that, while ensuring the prompt payment of bills, it is necessary that disbursement should be made under proper safeguards. The Amildars may, therefore, be drawing officers up to a limit of Rs. 100, Assistant Commissioners up to a limit of Rs. 500 and the Deputy Commissioners up to Rs. 2,000, the Revenue Commissioner being responsible for the disbursement of any sum above that amount. As prompt payment must depend on timely measurement and check measurement of works, it is necessary to define the duties of the various grades of officers so far as the preparation of measurement lists and check measurement are concerned. The Tank Inspector will be primarily responsible for the preparation of original measurement lists in regard to the tank restoration works and the Sub-Overseer for all other maramat works in the Revenue Sub-Division under his charge. The Amildar will be the check measuring officer in respect of all works costing Rs. 100 and less and the Engineer officer attached to the District Office in respect of works costing above Rs. 100 and below Rs. 500; until other agency is created all works costing above Rs. 500 and below Rs. 1,000 will be checked by the (Public Works Department) Sub-Division Officer of the Sub-Division; works above Rs. 1,000 and below Rs. 2,500 by the Public Works Department Executive Engineer. All works costing over Rs. 2,500 are to be executed by the Public Works Department and will follow the Public Works Code Rules.

10. As regards establishment, Government in their Order No. R. 8464-74—L. R. 143-13-2, dated 28th April 1914, have already sanctioned the revision of the maramat establishment under the Deputy Commissioners, tentatively for a period of three years. The recommendations of the Committee that the District maramat clerks should be trained Accountants of the status of 4th grade Accountants of Comptroller's office and that a first grade Accountant should be attached to the Audit office for checking the accounts of the maramat offices in a regular rotation and examining not less than a third of the accounts of each office every six months, are approved. A set of simple rules on the lines of the procedure followed more or less in the Public Works Department should be drawn up and affixed to each measurement book for the guidance of all the officers of the District maramat establishment as regards measurement, check measurement and payment of bills.

11. To ensure that these rules which will now be embodied in an Appendix to this order, are strictly followed, the following returns are prescribed :—

(1) A quarterly progress report of works for each taluk to be submitted to the Sub-Division Officers in Form I;
(2) A quarterly review thereon by the Sub-Division Officers to be submitted to the Deputy Commissioners;
(3) A half-yearly progress report for each district to be submitted by Deputy Commissioners to the Revenue Commissioner in the form prescribed in Government Order No. R. 9756-66—L. R. 408-14-22, dated the 7th May 1915;
(4) A half-yearly review thereon by the Revenue Commissioner to be submitted to Government; and
(5) An annual report on the working of the rules to be submitted by the Revenue Commissioner to Government in Form II.

APPENDIX.

Rules governing the Restoration and Construction of Minor Tanks in Mysore.

Preparation of Programme, etc.

1. The Deputy Commissioners of Districts should, as soon as the scheme comes into operation, prepare a list, in a form to be prescribed by the Revenue Commissioner, of all unrestored minor tanks in their respective districts and get the same printed. Copies of the printed list should be supplied to the Revenue Commissioner and Government.

2. From the list prepared under Rule 1, the tanks intended for restoration in the ensuing year should be selected before the end of March. Tanks which urgently require repairs and which would also be remunerative, should be first selected. As a general rule, tanks, the cost of restoration of which does not exceed ten times the assessment from the irrigable area under them, should be given preference. Exceptions may, at the discretion of the Deputy Commissioner, be allowed in special cases.

3. In exceptional cases, the entire cost of the restoration of a tank may be met by Government; but such cases should be very few and sanction of Government will be given only when strong grounds exist.

Preparation of Plans and Estimates.

4. When the required number of tanks are selected, immediate steps should be taken to have correct plans and estimates prepared. For the present, Government will provide the necessary agency for the purpose of furnishing plans and estimates. The ultimate aim of Government, however, is that the people should be able, in course of time, to get these done themselves, the function of the Government officers being limited to the checking of estimates and the measurement of work done.

5. Plans and estimates should ordinarily be prepared by the Maramat Agency or by such other additional establishment as may be sanctioned for the purpose by Government from time to time.

6. Whenever a project for the restoration of a minor tank involves the improvement of its capacity, the plans and estimates should be scrutinised and countersigned by a responsible Public Works Officer. This scrutiny may be done by the Executive Engineer in the case of projects estimated to cost Rs. 1,000 or less and by the Superintending Engineer in the case of those estimated at between Rs. 1,000 and Rs. 2,500 and by the Chief Engineer in all other cases. If the project does not contemplate an increase of storage room, such scrutiny and countersignature will not be required. But the Deputy Commissioner may refer any estimates about which he may entertain doubts to the Executive Engineer for check and approval.

7. The power of sanctioning estimates after they are professionally approved will rest with the Deputy Commissioner of the District concerned up to Rs. 1,000 and with the Revenue Commissioner up to Rs. 2,500. All estimates above this latter amount should be submitted to Government. After the estimates are sanctioned by the proper authority, the Deputy Commissioner will authorise the payment of Government contribution in each case.

8. When, owing to the necessity of providing for unforeseen items in the course of the execution of a work, an increase of expenditure over the sanctioned amount becomes inevitable, proper revised estimates should be prepared and submitted for sanction. The revised estimates will be sanctioned by the same authorities and in the same manner laid down in Rule 7.

Method of Financing the Works.

9. Of the total cost of restoration of a minor tank, the raiyats holding irrigable lands below such tanks will bear one-third in proportion to the extent of their holdings, and the balance of two-thirds will be contributed by Government. When the contribution of the raiyats has been deposited in the Treasury, the Government share of the cost should be made available at once, out of the sanctioned budget grant for the year placed at the disposal of the Deputy Commissioner.

10. If the raiyats are unable to pay their contribution immediately, the Deputy Commissioner may, in very exceptional cases, treat the amount due from them as a loan on the security of their lands subject to recovery within a period not exceeding five years, with interest at the rate sanctioned for Takavi loans.

11. The additional cost, if any, due to the revision of the original estimates will be borne by the Government and the raiyats in the same proportion as that fixed in Rule 9. If any additional cost is incurred by the raiyats during the execution of a work without obtaining previous sanction to revised estimates, Government will not be liable to pay any portion

of such additional cost. Savings, if any, will ordinarily be credited to the estimates under which there may be excess under certain heads. When, however, the savings in working up the estimates accrue to any considerable extent justifying a refund, the Deputy Commissioners may, at their discretion, recommend such refunds in such special cases.

12. If in addition to the raiyats' share, the whole or any part of the Government share of a work is borne by one or more holders of lands under the tank, a reasonable concession in the shape of remission of assessment for a term not exceeding ten years will be granted by Government in lieu of money contribution, the nature of the concession being determined with special reference to the merits of each case.

Agency.

13. As it is desirable to associate the villagers with the work of restoring their village tanks, it may be entrusted for execution to the Village Panchayet, if any, constituted under the Tank Panchayet Regulation, or to one or more of the leading raiyats, not exceeding three persons, holding a large extent of land under the tank, under definite *mutchalikas* and securities. The Panchayet or the persons responsible should get the work done themselves by employing directly the necessary labour and arranging for the necessary petty supervision; or they may execute the work by petty contract or on piece work system.

Contracts for works below Rs. 500 may be disposed of by the Amildar himself but he should as far as possible entrust them to the villagers who would be benefited thereby. Contracts for works for Rs. 500 and above but below Rs. 1,000 may be disposed by the Amildars with the approval of the Assistant Commissioner. Contracts for works costing Rs. 1,000 and above but below Rs. 2,000 should, wherever possible, be disposed of by calling tenders, the acceptance of which will rest with the Deputy Commissioners. Tenders should invariably be invited for the execution of all works costing more than Rs. 2,000. The disposal of contracts for such works shall rest with the Deputy Commissioner.

Actual Execution of Work and Payments.

14. Works will not be started before the raiyats' contribution is recovered or the necessary agreements are taken to have it treated as a loan under Rule 10 and also before the estimates are sanctioned and the necessary reappropriations made. If in particular cases it is found absolutely necessary, a sum of money sufficient to give the work a good start may be advanced to the Tank Panchayet or to the raiyats entrusted with the work as the case may be. This amount will be adjusted in subsequent bills.

15. All measurements will be taken and bills prepared at reasonable intervals by the Government agency. Bills for Rs. 500 and below will be passed by the Assistant Commissioner and, for sums above that amount, by the Deputy Commissioner and made over to the Amildar for payment. As many works as possible should be personally inspected by the Amildar and the Sub-Divisional Officer.

The Amildars may be drawing officers up to a limit of Rs. 100; Assistant Commissioners up to a limit of Rs. 500; and the Deputy Commissioners up to Rs. 2,000, the Revenue Commissioner being responsible for the disbursement of any sum above that amount.

The Tank Inspector will be primarily responsible for the preparation of original measurement lists in regard to the tank restoration works and the Sub-Overseer for all other maramat works in the Revenue Sub-Division under his charge. The Amildar will be the check-measuring officer in respect of all works costing Rs. 100 and less and the Engineer officer attached to the District office in respect of works costing above Rs. 100 and below Rs. 500. Until other agency is created, all works costing above Rs. 500 and below Rs. 1,000 will be checked by the Public Works Department Assistant Engineer of the Sub-Division, and works above Rs. 1,000 and below Rs. 2,500 by the Public Works Department Executive Engineer. All works costing over Rs. 2,500 are to be executed by the Public Works Department and will follow the Public Works Code Rules.

16. Every work should be completed within two seasons after its commencement. When a work is not so completed it should be treated as an item under objection and a list of such items showing briefly the cause of dealy in completion should be submitted to Government through the Revenue Commissioner along with the annual report.

If a work once commenced is stopped for six months continuously, a fresh sanction will be necessary before it is resumed.

General.

17. Where the holders of at least two-thirds of the area of irrigable land under a tank agree to the restoration of the tank and to contribute their share, such consent shall be binding also on the holders of the remaining irrigable area below the tank, who will then become liable to pay their share of the contribution. In default of such payment, the contribution due will be recovered from them as a revenue demand.

No. 2440-87—L. R. 408-14-40, DATED 29TH AUGUST 1916.

18. Where the holders of at least two-thirds of the irrigable area below a tank have agreed to the restoration of the tank under these rules, any one or more of them may pay the full amount of contribution due from all, and shall thereupon become entitled to a reimbursement of the proportionate contribution of the others with interest at the rate sanctioned for agricultural loans. The Amildar may recover the proportionate amounts due from the other holders with interest as aforesaid as an arrear of land revenue, and make the collections over from time to time to the holder or holders who have advanced the entire amount in the proportion of the amounts so advanced.

19. These rules will also apply *mutatis mutandis* to the construction of new minor tanks and also to other works now executed by the District Maramat Agency, such as petty construction and repair of the buildings of the revenue and other departments and also works relating to the maintenance and repairs of minor tanks which under existing orders are under the control of the Public Works Department.

No. R. 2440-87—L. R. 408-14-40, DATED 29TH AUGUST 1916.

FORM II.

ANNUAL REPORT ON THE WORKING OF THE MINOR TANKS RESTORATION SCHEME.

(1) *The Maramat Establishment in the Districts.*—State here whether the scale sanctioned in Government Proceedings No. R. 8464-74—L. R. 193-13-2, dated 28th April 1914, has been fully worked up to in each district, how they are distributed, and whether they are doing their work. (Note paragraphs 5, 6 and 7 of the Government Proceedings dated 28th April 1914.)

(2) *Preparation of Programmes, etc.*—(*a*) Preparation of lists of all unrestored minor tanks in the districts.

Reference should be made as to whether this work has been completed in all the districts. The number of such tanks in each district and the total for the State at the beginning of the year may be specified. (Rule 1 of App. A to Government Proceedings dated 11th December 1914.)

(*b*) *Whether a Meeting was held in March of the previous year to settle which tanks should be taken up for restoration during the current year.*—(Para 8 of the Government Proceedings dated 28th April 1914, and Rule 2 of Appendix A of Government Proceedings dated 11th December 1914.)

Briefly refer to the action taken at the meeting in each district and specify the number taken up in each district.

(3) *The Number of incomplete Tank Works pending from the previous year.*—How many such works were pending and were they completed during the year?

(4) *Progress in the current year.*—(Preparation of plans and estimates.)

Briefly describe the number of tanks taken up for restoration, in how many cases the maximum limit of ten years' assessment laid down in Rule 2 of Appendix A. was departed from and whether in any case the entire cost of restoration was borne by Government under Rule 3 of Appendix A.

Also describe whether the professional scrutiny provided for in Rule 6 of Appendix A. was exercised, whether revised estimates had to be prepared in any case, etc.

(5) *Finance.*—Here describe whether in all the cases the raiyats paid up their contribution before the work was started and whether in any case the amount was treated as a loan under Rule 10 of Appendix A.

(6) *Agency.*—Here describe how the work was executed, whether by the Tank Panchayat, if any, or the leading raiyats or the professional contractors of the Public Works Department.

(7) *Actual Execution of Work and Payments.*—Here describe briefly how the rules laid down on the subject worked in practice.

(8) *General Remarks.*—What was the amount allotted for the year and whether the amount was fully spent in that year, etc.

(9) *Enclosure to the Report.*—A statement for the year in the form prescribed in Government Proceedings No. R. 9756-66—L. R. 408-14-22, dated 7th May 1915.

No. R. 1463-4—Ft. 108-15-12, dated 3rd August 1916.

GENERAL AND REVENUE DEPARTMENTS.

Read—

The * report of inspection of the Mysore District Forest Office held by the Conservator of Forests on the 7th March 1916, submitted with his letter No. 12414, dated 10th June 1916.

* Printed as annexure

Order No. R. 1463-4—Ft. 108-15-12, dated 3rd August 1916.

Recorded.

2. The report discloses that the management of the District Forest Office is unsatisfactory and that the office staff is inefficient. Government regret to note that there was no inspection since 1911 till the one under review.

3. Several important registers and accounts are not being properly maintained as required by the codal rules. Important returns due to and from the District Forest Office have not been submitted though several months have elapsed since the due dates. Several years have elapsed since the date of the last stock-taking in Depots and Kotis. Large amounts of revenue are outstanding in the accounts, as shewn in the margin. Several objection statements from the Comptroller have been pending for a long time. As many as forty-five cases have been pending undisposed of in the District Forest Office for over two years.

	Rs.	a.	p.
I (*a*) Timber removed by Government agency	15,583	2	2
(*c*) Bamboos	3,151	3	4
II (*a*) Timber removed by contractors	3,470	5	11

(*e*) Other minor Forest produce	11,657	13	4
III Drift wood	22	1	1
IV (*c*) Other sources	93	4	6
Old Balance	6	7	11

4. The value of articles of stock reported to be missing should be made good by the persons responsible for the same.

5. Many of the irregularities which have been noticed by the Conservator could have been avoided if he had held regular annual inspections of this important District Office, as required by Article 180 of the Forest Code.

6. The Conservator of Forests is requested to submit a special report at the end of six months after a further inspection as to the condition of the office, giving the names of officers responsible for the several irregularities, reporting how far they have endeavoured to rectify them.

INSPECTION REPORT OF THE MYSORE DISTRICT FOREST OFFICE.

Date of inspection.—7th March 1916

Date of previous inspection —13th February 1911

Office building —The office is located in the Public Office building, but the accommodation it provides, although the largest it could afford to, is found to be much insufficient. The necessity for having a separate office is keenly felt and has once before been brought to the notice of Government

Furniture —The following articles of furniture are necessary. The District Forest Officer will submit an estimate for getting them prepared locally.

Pigeon cases two. One for the special clerk and another for the second clerk who has none

MANAGEMENT AND WORKING OF FORESTS

1. *Register of State Forests* —Maintained. The notifications pertaining to the Moyar and Bommenhalli forests should be transferred to their right places, in the order of time. It is a pity that no care has been taken to file 'B' and 'C' registers with the notifications concerned, in the case of the following forests —

1 Kakankote east extension
2 Bheemanbid
3 Naganapur block III and
4. Dhanagur

The District Forest Officer should supply this omission at once.

The notification and the connected 'B' and 'C' registers of the Katwal block which was declared a State Forest in August last do not as yet find a place in the register

Government notifications relating to the rights of ways, etc, in the several forests of the district are only conspicuous by their total absence The register of State Forests as now maintained is incomplete and the District Forest Officer will, it is hoped, look to its completion at once

Maps of state and other forests —Maps remain yet to be supplied for the following forests:—

1 Heggavadi I and II
2 Kaniyanpur I and II
3 Talkad sand dunes
4. Haradanahalli
5 Hasvinkal
6 Karighatta and all the other plantations in the district

The instructions conveyed in the Conservator of Forests' Circular No. 7478-85 of the 20th January 1914, about wall-maps required to be hung up in the District Forest Office, have not been given effect to. There is only one set of Hallabetta and Arabitittu maps against two sets required to be kept for the District Forest Officer's use

3. *Control books (Form No 2)* —Maintained very indifferently The entries in most cases are not even in the handwriting of any of the District Forest office clerks. The Range office hands have simply copied what they found in the Range registers. Disowned by the District Forest Officer and his clerks, the register is naturally found in a neglected condition hardly justifying its existence, containing as it does, unreliable statistics. The District Forest Officer is warned that this important register should be rewritten by himself or one of the senior clerks of his with due regard to the provisions of the sanctioned and provisional working-plans and to the work actually turned out If matters do not improve by the next inspection, drastic measures will have to be taken.

4. *Register of yield and out-turn —Form No 2.*

5. *Records of works of improvement, reproduction etc —Form 3.*—The observations made in para 3, *supra* apply to these registers as well.

6. *Register of trees felled —Form No. 3 A.*—Copies of felling registers received from Range offices with their monthly accounts have been filed in the office The District Forest Officer will report whether it will not be advantageous to withdraw all the completed felling registers from the Range and Sub-Range officers and file them in the District Forest Office.

7. *Forest journal.*—Not maintained. The instructions given in the previous reports have so far proved but a cry in the wilderness. By the next inspection the District Forest Officer should show good progress in this direction.

No. R. 1463-4—Ft. 108-15-12, dated 3rd August 1916.

8. *Register of receipts and issues of timber and other produce in Depots.—Form No. 6.*—Maintained up to the end of February 1915. Returns for the past eleven months are in arrears and the District Forest Officer should see that the accounts, long overdue, are compiled and submitted to the Conservator without further delay. The transmission of depot returns through the respective Range Officers, so far as the major depots of Mysore and Nanjangud are concerned, should be insisted upon. Explanation is necessary for not carrying out the instructions of the Conservator in this behalf and also for not submitting the accounts in question regularly every month, in spite of repeated reminders. The balance shown in the District and Range returns do not tally and the District Forest Officer should pay personal attention towards reconciling the differences. The non-submission of such an important return as Form No. 6 for close upon a year cannot but be looked upon as a neglect of legitimate duty on the part of the District Forest Officer.

9. *Register of sales of timber and other produce cut and collected by Government Agency—Form No. 7.*—Maintained up to the end of December 1915. Checked and found that the difference between the 'Demand' and the Actual. 'Collection' has been correctly brought to Form No. 10 and accounted for.

10. *Register of timber and other produce cut collected and removed by purchasers and consumers—Form No. 9.*—Maintained up to end of December 1915. Checked and found correct. The 'F' forms filed in the office are those prepared by the Range Officers. The District Forest Officer will arrange to get the 'F' forms of the license-vendors in original instead of leaving them to be filed in the Range Office. Without these, the figures in abstract entered in the Range Officers 'F' form cannot be effectively checked.

11. *Register of outstandings of revenue—Form No. 10.*—Maintained up to end of December 1915. Checked with Forms Nos. 7 and 9 and found to agree.

12. *Particulars of outstandings of revenue.*—The balance outstanding at the end of December 1915 amounts to Rs. 4,66,731-0-10, of which Rs. 4,32,696-14-6 represent the revenue under I (*d*) (sandal) which is all current 'Demand' with the exception of Rs. 6-7-11 shown as old balance, regarding which the District Forest Officer is requested to submit a detailed report within a month. Excluding the outstandings on account of sandal sales—the other items come up to Rs. 34,034-2-4 as follows:—

	Rs.	a.	p.	
I. (*a*)	15,583	2	2	
(*c*)	3,151	3	4	
II. (*a*)	3,470	5	11	Rs. 3,358-13-0 due from Messrs. Nagappa and Venkatasami Naidu.
(*d*)	56	4	0	
(*e*)	11,657	13	4	
III.	22	1	1	
IV. (*c*)	93	4	6	

The District Forest Officer will in the case of items outstanding from previous years submit a detailed report as to the action taken by him towards their recovery.

13. *Register of drift and waif wood—Form No. 8.*—Maintained. The balance as shown at the end of December 1915, is as follows:—

Teak log	...	...	...	...	...	9
Matti	...	...	..	...	...	4
Bete	...	...	...	...	...	2
Nandi	...	...	...	...	...	2
				Total	...	17

The District Forest Officer will take action under Section 40 of the Forest Regulation without further delay.

14. *Register of free grants—Form No. 11.*—Maintained.

15. *Bill and receipt books Nos. 12 and 13.*—These are to be maintained in depots.

II. Stock.

16. *Elephant returns and condition of elephants and cattle.*—Not maintained. It is explained that the returns as received from the Sub-Division Officers and Range Officers are being sent to the Conservator with the District Forest Officer's review thereon. This is highly unsatisfactory. The original returns should, in future, be filed in the District Forest Office.

No. R. 1463-4—Ft. 108-15-12, dated 3rd August 1916.

There are seven elephants on the list—

1. Bada-Jung Bahadur.
2. Heeragaj.
3. Lakshmi.
4. Mand.
5. Wasp.
6. Rajapyari.
7. Mary.

Their condition is reported to be good. There is also a bullock in the Kakankote Range, and as regards the buffalo referred to in the previous report, the District Forest Officer will report where and how it is employed at present. Why the register of live-stock has not been posted up-to-date should be fully explained.

17. *Register of stores, tools, and plant—Form No. 14.*—The daily transaction register is maintained and posted up-to-date.

The register in Codal Form No. 14 has not been compiled and submitted to the Conservator for the past two years, despite many a reminder.

Checked the stock on hand with the following result:—

(*a*) Articles not brought to account:

Guard's hammer-axes—	...	...	12
Brass sight vane ...	...	...	1
Set-squares ...	...	...	2
Plotting scales ..	...	...	4
Punches ...	...	...	2

The District Forest Officer will bring the above articles on to account at once. The loss of a tripod-stand of the prismatic compass and of the three Hobb's Locks has not yet been accounted for, although five years have passed by.

It is seen that in some cases the articles of furniture sent on to the Range Officers from Conservator's Office have not been shown in the District Register. On the whole, the register has not been maintained with due care. In future the District Forest Officer will see that Forest Form No. 96 is invariably made use of in his office, while issuing articles of furniture, uniforms and even license books and registers, etc.

The stock-taking is reported to have been done on the following dates:—

Kakankote Range Office, November 1915 (by the Sub-Division Officer).
Begur Range Office do (by the District Forest Officer).
Hunsur do July 1915 do do
Chamrajnagar Range Office, December 1915 (by the District Forest Officer).

III. Cash Accounts.

19. *Cash book.*—Maintained and posted up-to-date. In some cases, entries do not give full particulars. Items other than classified revenue and expenditure relating to subordinates accounts have not been entered in detail as required by Article 120 (*b*) of the Forest Departmental Code. (*b*) Cheques drawn have all been brought to the cash book and accounted for. As regards revenue actually remitted to the Treasury it is to be observed, with regret, that the entries in the district cash book are confined only to the items credited in the subordinates' accounts leaving large sums of revenue (money) actually credited to Treasures in a month to be accounted for by piece-meal in subsequent months. This has

caused confusion in accounts—and if this undesirable procedure continues longer no one knows where it will lead to. The District Forest Officer will see that all the items of revenue credited into the Treasuries are taken into his accounts in the same month. There is much weight in the District Forest Officer's statement that if the schedule of remittances (Form No. 27) due from the District Treasury Officer is received in time, confusion in forest-accounts could be easily avoided. Instances are not wanting where the Treasury Officers sent the schedule of remittances long after the submission of accounts. The omissions, etc. noticed in the cash book have been duly noted against the entries concerned—and the District Forest Officer will see that the irregularities pointed out are not allowed to occur in future.

Cash balance, Rs. 15-15-9.—Checked and found correct.

20. *Record of sanctioned works.—Form No. 28.*—Maintained neatly, for the current year. The registers pertaining to the previous years are all in the handwriting of the Range office clerks, and some of them belong to the Range Officers. Completion reports are still due for some of the completed works and their submission should be expedited.

21. *Register of license books—Forms 'B' and 'C'.*—Maintained. The number and date of the Conservator's communication giving cover to the supply of license books should be quoted in future—and the omissions now noticed in this connection be supplied at once. The maintenance of these important registers should be entrusted to a more responsible official in the office than the last clerk.

The number of books in hand is 531 as detailed below:—

Reserved	Unreserved	Firewood	Bamboos	Grazing
25	195	22	10	90

Minor Forest Produce	Other kinds
96	93

The number of used-up license books with the Range Officers is large, and steps should be promptly taken to withdraw them.

22. *Establishment pay bills.*—Maintained in a bound book.

23. *Travelling allowance bills.*—Copies have been maintained.

Details of bills submitted for audit are given below:—

District Forest Officer.—January 1916.
Do Establishment.—December 1915.
Sub-Division Officer, Heggaddevankote.—January 1916.
Do Establishment.—January 1916.

24. *Cheque books.*—Written up by the District Forest Officer himself—and kept in his own custody. The slight mistakes noticed have been set right. In the counterfoils, the stations where the cheques were issued have not been noted. The District Forest Officer will see that the place where the cheque is issued is invariably maintained in future.

25. *Account current—Form No. 18.*—Maintained up-to-date.

26. *Register of cheques—Form No. 19.*—Maintained and posted up-to-date. The entries relating to previous years have not been made with due care.

Checked with cheque books and the cash book and found to agree.

27. *Last quarter to which the book (Form No. 18) has been balanced.*—Up to end of December 15.

No. R. 1463-4—Ft. 108-15-12, dated 3rd August 1916.

28. Names of Treasuries in which account is opened :—

1. District Treasury, Mysore.
2. Taluk ,, Gundlupet.
3. ,, ,, Chamrajnagar.
4. ,, ,, Krishnarajpete.
5. ,, ,, Seringapatam.
6. ,, ,, Heggaddevenkote.
7. ,, ,, Hunsur.

29. *Contractors' and disbursers' ledger—Form No. 24.*—Maintained and posted up-to-date. Transactions, not supported by cash book entries, are found here and there. The ledger is a subsidiary return entirely depending upon the cash book and as such, anything, which is not to be found in the cash book, cannot find a place in the ledger. With the exception of Hunsur, Gundlupet, Kakankote, and Sargur Range Officers' accounts, the ledger balances as shown in the District and Range accounts, tally. The District Forest Officer will take immediate steps to reconcile the differences.

30. *Abstract of contractors' and disbursers' ledger—Form No. 25.*—Maintained up to end of January 1916. Checked with Form No. 24 and found to agree. The total balance at the end of January 1916, amounts to Rs. 14,004-8-2. This is very heavy and should be reduced early.

31. *Objection statements.*—The following objection statements are pending disposal with the District Forest Officer:—

Comptroller's—i. April 1915. } (in original)
ii. May 1915. }
i. March 1914. }
ii. May 1914. }
iii. June 1914. }
iv. November 1914. } Received back with further remarks.
v. December 1914. }
vi. January 1915. }
vii March 1915 }

IV. Office Business.

32. *Keeping of documents.*—In "cases" and "files"

33. *Register books and maps—Form No. 31.*—Maintained. The register of maps is very indifferently maintained.

34. *Register of receipts and issues of correspondence—Forms 32 and 33.*—Maintained. but the entries are in some cases very vague. The work is entrusted to one of the junior clerks, and in future, the Accountant should examine the registers weekly.

35. *Destruction of useless records.*—No list has yet been prepared. The records are being sorted now.

36. *Punctuality of correspondence.*—Details of pending papers are as follows:—

Pending over two years	45
Do one do	3
Pending for less than one year, but over six months ...	11
Do six months and less	13
Total ...	72

37. *Custody of stationery.*—With the record-keeper. The required registers have been maintained, and posted up-to-date.

38. *Preservation of records.*—Arranged in racks and almirah.

39. *Departmental Code, Forest Regulation, and Service Regulations.*—Kept corrected up-to-date.

40. *Register of forest offences.*—Maintained and posted up-to-date, but rather indifferently. In future, this register should be maintained by the Accountant. The omissions and mistakes noticed have been noted in the counterfoils of Form 'B.'

41. *Sandal Damage Register.*—Maintained.

42. *Acquittance Roll.*—Maintained. The return is not signed by the District Forest Officer in good many cases, nor have all the corrections been attested to. In some instances, the dates of payment as given in the acquittance roll and in the cash book do not agree.

The signature of clerk, M. S. Kenchia, has not been obtained when his pay for March 1915 was disbursed to him. The pay for July 1913 of one acting peon Karia has been shown as disbursed in the acquittance roll whereas the item is not verifiable from the cash book. The District Forest Officer will please explain this discrepancy.

No. R. 1463-4—Ft. 108-15-12, dated 3rd August 1916.

43. *Service Registers.*—Maintained in the District Forest Office for the office staff, and Rangers and Foresters, except those working in the Heggaddevankote Sub-Division. The service register of clerk N. H. Dharmaji Rao is not available. It is one of those lost by the District Forest Officer, Tumkur.

44. *Register of security deposits.*—Maintained, but not posted up-to-date. The recoveries are, however, being carefully watched, through cash books.

45. *Gazette Files.*—Bound up to the end of December 1914.

46. *Diary Files.*— " "

47. *Government Proceedings and Circular Files.*—Kept in separate files and posted up-to-date.

V. Personnel.

48. *Officer in charge.*—Mr. P. S. Govinda Rao, Assistant Conservator of Forests, from 8th March 1915.

49. *Efficiency of office establishment.*—Not very efficient.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 12420, dated 10th June 1916, from the Conservator of Forests in Mysore, submitting the report of his inspection of the Chitaldrug District Forest Office conducted on 3rd May 1916.

(Printed as an accompaniment.)

Order No. R. 1600—Ft. 108-15-14, dated 7th August 1916.

Recorded:

2. There is an interval of four years between the date of the last inspection and the present one. Government would like to impress on the Conservator the necessity for more frequent inspections. The period covered by the inspection made and the name of officer in charge during such period should be noted in future reports.

3. The Deputy Commissioner may be addressed in the matter of accommodation required for keeping the tent and stores.

4. *Para 8.*—The arrears under tangadi are heavy and those under minor forest produce have been outstanding for a long time. Steps should be taken to recover these at an early date.

5. *Para 11.*—The omission to take stock every half-year and especially of the Chitaldrug Range since the date of its formation in 1914, requires explanation.

6. *Para 22.*—The differences between District and Range balances should be traced and reconciled, and unremitted revenue accounted for by the officers concerned forthwith.

7. *Para 37.*—The Conservator should enquire in detail as to what became of the security deposit register which is said to have been maintained in 1912 (*vide* Inspection Report of that year) and why it is not being maintained since.

8. The Conservator is requested to fix a time for the rectification of the several omissions and irregularities pointed out by him and call for a report to enforce compliance.

ACCOMPANIMENT.

INSPECTION REPORT OF THE DISTRICT FOREST OFFICE, CHITALDRUG.

Date of inspection.—3rd May 1916.

Date of previous inspection.—9th February 1912.

Office building.—The office is located in the District Office; the want of a separate room for keeping the District Forest Officer's tent and other stores is still keenly felt.

Furniture.—The District Forest Officer has taken no steps to get record-racks for his office use. He should now submit an estimate for getting them made locally.

I. Management and working of Forests.

1. *Register of State Forests.*—Maintained. The notification pertaining to the Kudrekanve State Forest is wanting. The forests of Nirthadi and Malebennur should be re-notified under Section 23 of the Forest Regulation, if not already done so, or in case they have been so dealt with, the notifications concerned should be filed in the register. None of the notifications relating to the plantations is available. These should be filed, if the areas have been notified, and if not, prompt steps should be taken to notify them as State Forests.

2. *Maps of State Forests.*—Forest survey maps have been supplied for all the State Forests in the district, with the exception of Jagalur and Kudrekanve extension forests which have been notified recently. Maps of the Bavenahalli and Thuppadahalli forests should be supplied to the Range Officers of Chitaldrug and Holalkere respectively without further delay.

3. *Control books—Form Nos. 2, 2A and 3.*—Maintained. They have not been rewritten since the date of last inspection, nor have they been posted up-to-date. The District Forest Officer should take personal interest in getting these important registers rewritten correctly in accordance with the sample forms. A report as to the progress made in this connection should be submitted by the end of December next.

4. *Forest journals.*—The above remarks apply to the forest journals also.

5. *Register of receipts and issues of timber and other forest produce in depots—Form No. 6.*—Maintained and posted up to the end of February 1916. This return has not been written always with due care. The following materials shown as disposed of in Form No. 6 are not verifiable from Form No. 7.

Big poles ...	... 100	Supplied to the Amildar, Chitaldrug, in January 1912.
Small „ ...	... 200	
Jungle „ ...	... 3,530	
Bamboos ...	... 3,755	Do
Grass ...	... 1,900 bundles	

Eight Teak and two Matti logs which remained in the stock against the Holalkere Range Office at the end of July 1915 have been omitted to be included in the opening balance for the next month. Their disposal has however been recorded in the remarks column instead of in the body of the return. This is highly irregular and needs explanation. The discrepancies in question should be fully explained.

6. *Register of sales of timber and other forest produce cut and collected by Government Agency—Form No. 7.*—Maintained and posted up to the end of February 1916, but not with sufficient care. The following materials are not verifiable from Form No. 6.

			Rs.	a.	p.
March 1912—Props	1,128	value	32	3	6
„	1,147	„	104	10	0
„	1,350	„	123	8	0
Bamboos	2,763				
Do	11,028				
Grass	6,438 bundles				
November 1912—Fuel	500 cubic feet				
March 1913 „	100 cubic feet				

These should be reconciled and the fact reported to the Conservator.

7. *Register of sales of timber, etc., cut and collected by purchasers and consumers—Form No. 9.*—Maintained and posted up to end of February 1916. The difference between the "Demand" and the actual "Collection" has been duly brought to and accounted for in Form No. 10. The authority for writing off Rs. 10 in October 1915, should be quoted. The 'F' Forms submitted by the vendors to the respective Range Officers are not being sent for

and filed in the District Forest Office. This omission should be explained. The abstracts received from the Range Officers serve no useful purpose, and the District Forest Officer will, in future, get the "F" Forms rendered by vendors along with abstract accounts compiled by the Range Officers and file them carefully in his office, after checking the entries with the Range cash books.

8. *Register of outstandings on account of revenue and revenue received in advance—Form No. 10.*—Maintained and posted up to end of February 1916. The value of waste materials appearing in Form No. 7 for December 1915, against the Holalkere Range, *viz.*, Rs. 17, has not been fully accounted for in Form No. 10. There is a difference of Rs. 2 and the District Forest Officer will explain why this was kept out of Form No. 10. The outstandings amount to Rs. 93,767-5-1, as detailed below:—

		Rs.
(i)	Tangadi	93,225-0-0
(ii)	Miscellaneous	2-5-1 (value of uniform)
(iii)	Minor forest produce	96-0-0 due on 5th July 1915
(iv)	Grazing	444-0-0 recoverable by the close of the year.

Of item No. 1, Rs. 46,612-8-0 fall due next year and Rs. 19,100 have since been recovered in March and April 1916.

9. *Register of free grants.—Form No. 11.*—Maintained.

STOCK.

10. *Live and dead stock.*—Nil.

11. *Register of stores, tools and plant—Form No. 14.*—Maintained both in Form 14 (annual) and in the daily register form prescribed by the Conservator. Checked and found correct.

Date of last stock-taking—
Holalkere Range Office—16th December 1914.
Molakalmuru Range Office—31st August 1915.
Marikanve Range Office—5th October 1915.
Chitaldrug Range Office—not inspected (the Range was formed in May 1914).

12. *Equipment of stores.*—Sufficient.

III. CASH ACCOUNTS.

13. *Cash book.*—Maintained and posted up-to-date. Cheque book numbers are being now noted as pointed out at the last inspection. The unremitted revenue also finds a place now in the District Forest Officer's cash book, but such items should be transferred to the Ledger also as has been done in February 1916.

(*a*) Latest date to which headquarter entries have been made—2nd May 1916.

(*b*) Latest date to which subordinates' accounts (returns) have been received and written up—up to end of March 1916 (Accounts are under submission to the Comptroller).

(*c*) Cash balance Rs. 82-9-3. Checked and found correct.

14. *Record of sanctioned works—Form No. 28.*—Maintained correctly.

15. *Register of license books—Form 'B'.*—Maintained and posted up-to-date.

Balance of books in stock.

Reserved.	Unreserved.	Fuel.	Bamboos.	Grazing.	Minor Forest Produce.	Other kinds.
6	12	85	7	74	7	89

Checked and found correct.

The balance of used-up license books with the Range Officers, etc., as shown in Form No. 'C' is large. Evidently, the books returned by them have not been given credit to. This is rather unsatisfactory. Steps should at once be taken to get the books that have been received back, carefully checked and entered in the 'C' register.

16. *Establishments pay bills.*—Maintained and posted up to the end of February 1916.

17. *Travelling allowance bills.*—Submitted up to the end of—

District Forest Office establishment—March 1916.
District Forest Officer— Do
Range Officer, Chitaldrug—December 1915.
Do do establishment—November 1915.
Do Molakalmuru—Nil.
Do do establishment—January 1916.
Do Holalkere—October 1915.
Do do establishment—September 1915.

No. R. 1600—Ft. 108-15-14, dated 7th August 1916.

18. *Cheque books.*—These are kept in the personal custody of the District Forest Officer and are written up by himself.

19. *Account current—Form No. 18.*—Maintained, but not balanced for the second and third quarters ending 31st December 1915 and 31st March 1916. This should, in future, be maintained for each treasury separately as required by Article 152 of the Forest Departmental Code.

20. *Register of cheques—Form No. 19.*—Maintained and posted up-to-date. Compared in detail with the cash book and found to agree. The following are the treasuries at which drawing accounts are now opened:—

1. Chitaldrug District Treasury.
2. Holalkere Taluk Treasury.
3. Hiriyur Taluk Treasury.
4. Molakalmuru Taluk Treasury.

(Jagalur and Challakere Treasury cheque books are not in use now.)

21. *Contractors' and disbursers' ledger—Form No. 24.*—Maintained and posted up-to-date. Compared with cash book and found to agree.

22. *Abstract ledger—Form No. 25.*—Maintained and posted up to end of February 1916. The balance amounts to Rs. 2,532-6-6 plus an unremitted revenue of Rs. 230 as detailed below:—

			Rs. a. p.	
Range Officer, Chitaldrug		...	... 437-7-4	Unremitted revenue Rs. 40-0-0
Do	Holalkere	...	... 881-0-0	.....
Do	Marikanve	...	... 959-13-8	Rs. 170-0-0 20-0-0
Do	Molakalmuru	...	... 217-1-8	

With the exception of the Molakalmuru Range, the Range and District balances do not tally.

The difference should be reconciled within two months.

23. *Objection statement.*—The objection statement received from the Comptroller for February 1916 (received on 22nd April 1916) is pending disposal. Copies are being maintained in a bound book.

24. *Register showing disallowances, fines, etc.*—Maintained. Checked and found correct.

25. *Lease register.*—Maintained. The register shows only the Tangadi Leases. In future, it should exhibit minor forest produce and other leases, as well. Compared with Forms 9 and 10, and found to agree. The recovery of khists has not always been on the due dates. Delay for a month or two is noticed in some cases. A separate reference has been made to the District Forest Officer.

26. *Register of pass-ports and permits.*—Not maintained.

27. *Acquittance roll.*—Maintained. Compared in detail with the cash book and found correct. Corrections have not been attested in a few cases. The money order receipts of certain items remitted by post are not also forthcoming. The District Forest Officer's attention is invited to the remarks made against such items in the Acquittance Roll.

28. *Schedule of remittances—Form No. 27.*—Maintained. The Treasury schedules are not forthcoming. They should be picked up and filed for check at the time of next inspection. Without the Treasury schedule of remittances, the revenue items appearing in the cash book and other returns cannot satisfactorily be checked.

IV. Office Business.

29.—*Keeping of documents.*—Open file system. Files have not been well arranged. The District Forest Officer must pay more attention to this important work.

30. *Register of receipts and issues of correspondence.*—Maintained, and written up-to-date.

31. *Destruction of useless documents.*—A list is under preparation. It should be completed and submitted to the Conservator of Forests' for orders.

32. *Neatness in keeping office.*—Good.

33. *Punctuality in correspondence.*—Fair.

34. *Departmental Code, Service Regulations, Civil Account Code and Treasury Manuals.*—Corrected up-to-date.

35. *Record of cases compounded and prosecuted Form No. 35.*—Maintained.

1915-16 (up-to-date)	Cases registered.	Compensation recovered.	Pending.
	112	56	56

36. *Sandal damage register.*—Maintained.

	Cases reported.	Disposed of and damage recovered.	Balance.
1912-13 ...	7	7	Nil
1913-14 ...	25	18	7
1914-15 ...	9	3	6
1915-16 (up-to-date) ...	7	Nil	7

37. *Service books.*—Nineteen service registers are in office. The District Forest Officer should get such of the Guards service registers as are in the Range offices and file them in his office. The service registers have not been properly verified at the end of each official year. This matter requires personal attention of the District Forest Officer. A special report on the action taken should be submitted in July next.

Service Registers wanting.—Service Registers of—

(1) Forester Yellappa—sent to the Range Office, Holalkere.
(2) Do Basappa Chetty—due from Bangalore District.
(3) Do H. Subba Rao—due from Mysore District.
(4) Rangers Mr. K. Krishnaiengar—lost by the District Forest Officer, Tumkur.

Office peons.—Abdul Aziz.
Medikere.
Bomma.
Kasim.

Security deposit register.—Not maintained. This is a serious omission which should be fully and satisfactorily explained.

Uniform Register.—Maintained. Checked and found correct.

Gazette Files.—Bound up to the end of June 1915.

Indian Foresters.—Bound up to end of December 1914.

District Forest Officer's Diaries.—Bound up to the end of of December 1913-14.

Range Officers' Diaries.—Bound up to the end of December 1912-13 (Molakalmuru Range officer's.)

Register of Stationery.—Stationery is kept in the custody of the Accountant. Necessary registers have been maintained and posted up to the end of January 1916.

Register of books and maps—Form No. 34.—Maintained. The Indian Foresters, *Mysore Gazettes* and Government Proceedings, etc., have since been entered in this register. Checked and found correct.

V. Personnel.

Officer in charge.—Mr. D. Raja Rao, Assistant Conservator of Forests, since 30th March 1914.

General state of discipline.—Fair.

Efficiency of establishment.—There is much room for improvement.

Order No. R. 2148—Ft. 29-16-2, dated 18th August 1916.

Recorded.

2. It is observed that although there has been some improvement in the maintenance of registers, etc., since the last inspection, there is scope for further improvement as observed by the Conservator. He is requested to see that his instructions are attended to and all defects set right by the time of his next inspection.

3. *Para 23.*—It is unsatisfactory that there are many items pending adjustment in the Range Offices. All outstanding advances should be accounted for without delay.

4. *Para 40.*—The report about the loss of Service Registers already called for in Government Order No. R. 9823-5—Ft. 108-15-5, dated 20th April 1916, should be expedited.

5. *Para 37.*—It is not understood how, in the absence of a register for entering cases of damage to sandalwood trees, the quarterly statements due to Government are prepared and submitted. The Conservator is requested to direct that a register be opened forthwith and maintained correctly.

No. R. 2148—Ft. 29-16-2, dated 18th August 1916.

INSPECTION REPORT OF THE DISTRICT FOREST OFFICE, TUMKUR.

Date of inspection.—30th June 1916.

Date of previous inspection.—19th June 1915.

Officer in charge.—Mr. M. A. Varadachar, Acting Assistant Conservator of Forests, since 1st March 1915, save 45 days from 21st March 1916, during which period of absence on privilege leave, Mr. K. Muthiah, Game Preserves Officer, was in charge of the district.

Office building.—The office is located in a Government building.

Furniture.—As the work-shop attached to the Conservator's Office is no longer in existence, the District Forest Officer will submit an estimate early for getting the articles of furniture required by him prepared locally.

I. Records.

Management and Working of Forests.

1. *Register of State Forests.*—Maintained. Notifications of all the plantations have since been filed. B and C Registers of the Huliyurdurga State Forest are still wanting and the notifications have not been posted in chronological order, although this defect was pointed out at the last inspection.

2. *Maps of State Forests.*—Since the date of last inspection, Forest Survey maps have been supplied for the State Forests of Maddagiri, Nidagal and Kotegudda. Supply is due in the case of five forests, three of which have been duly surveyed.

3. *Control Books—Forms 2, 2 (a) and 3.*—These important registers are still found in a neglected condition. The entries they contain are mostly incorrect, and apparently no advantage has been taken of the sample forms. The previous instructions to the District Forest Officer on the subject have proved but a cry in the wilderness. The District Forest Officer is strictly warned that if he fails to write up the control books as well as the Forest and Plantation Journals in accordance with the codal instructions and sample entries within three months, his prospects are sure to suffer. Monthly progress reports should be submitted to the Conservator until the work is completed.

4. *Forest and Plantation Journals.*—Not maintained.

5. *Register of Receipts and Issues of Timber and other Forest Produce—Form No. 6.* Maintained and posted up to the end of May 1916. Compared the "Disposals" in detail with Form No. 7 and found to agree. The District Forest Officer should expedite the disposal of the Conservator's reference regarding the question of writing the following of the accounts:—

Casuarina poles	...	...	17
"Kapilarung"	...	..	1 lb.
Gallnuts	...	...	142 mds., 5 seers.
Tamarind	...	...	3 mds.

6. *Register of Sales of Timber and other Produce collected and removed by Government Agency—Form No. 7.*—Maintained and posted up to the end of May 1916. Checked with Form No. 10 and found correct.

7. *Register of Timber and other Produce cut, collected and removed by purchasers and consumers.—Form No. 9.*—Maintained and posted up to the end of May 1916. Checked with Form No. 10 and found to agree. As pointed out at the last inspection, the District Forest Officer is getting "F" Forms in original from the license vendors.

8. *Register of Outstandings on account of Revenue due to the Department—Form No. 10.*—Maintained and posted up to the end of May 1916. The difference between the "Demand" and the "Actual collection" relating to Forms Nos. 7 and 9 has been duly brought on to and accounted in this register. Checked also with the "Lease Register" and original sale records and found to agree.

The balance at the end of May 1916 amounts to Rs. 20,191-15-5, of which Rs. 18,635-3-9, fall due next year. Of the balance of Rs. 1,556-11-8, the recoveries so far made in the current month come to Rs. 727-3-7, and as regards the amount that may remain unrecovered at the end of the current official year, the District Forest Officer will submit a detailed report as to the action taken towards its recovery.

The amount of Rs. 1,243-3-4, referred to in para 8 of the previous inspection report has been adjusted as per Government Order No. R. 10434-5—Ft. 130-14-3 of the 20th May 1915.

9. *Register of Free Grants—Form No. 11.*—Maintained with nil entries.

10. *Register of Produce removed by Right holders—Form No. 11(a).*—Maintained from July 1915, and posted up-to-date, with nil entries.

11. *Receipt Books.*—Form No 13(a). No receipt in Form No. 13(a) has been passed since the date of last inspection.

No. R. 2148—Ft. 29-16-2, dated 18th August 1916.

II. Stock.

12. *Register of Stores, Plant and Tools—Form No 14*—Maintained both in Form No. 14 (annual) and the daily register form. The differences noticed between the two registers has not been reconciled as yet As it is, the correctness of the entries made in the previous years, cannot be vouchsafed The District Forest Officer will rewrite these registers correctly, after obtaining such of the information as is not available in his office, from the Conservator. The action taken in the matter should be reported within a month.

Dates of last complete stock-taking—

1.	Tumkur Range Office	...	...	14th June 1916.
2.	Maddagiri do	...	...	20th May 1915.

6.	Do Putta Hanuma			...	4	8	0
7.	Do Mudda	...	..	.	0	10	6
8.	B. Srinivasachar	..	..	...	3	9	3

The amounts outstanding against the Range Officers (Nos 1 to 4) should be recovered in full either by value of work done or in cash and adjusted in the accounts of June 1916. The necessity for advancing money to peons towards Railway fare should be explained (Items 5, 6 and 7). Item No 8 should also be adjusted in the current month's account. The item of Rs 25 transferred in the ledger to the account of the Range Officer, Bukkapatna in June 1915, is not supported by a corresponding entry in the District Cash Book. All transactions in the Ledger must be verifiable from the Cash Book Concerned.

24. *Schedules of Remittances—Form No. 27.*—Maintained Checked with the returns received from the District Treasury and with the Cash Book and found to agree.

26 *Register of Disallowances and Fines.*—Maintained. With the exception of disallowances under protest, the other items are now being noted in the register.

IV. Office Business.

27. *Keeping of Documents*—In 'cases' and 'Files'

28. *Copies of Registers in Forms A and B for artificial propagation of Sandal.*—Not maintained, although the omission was pointed out at the last inspection

29 *Register of Books and Maps*—Maintained The report called for regarding the books noted as "not found" by Mr P S. Govinda Rao, is still awaited The District Forest Officer will expedite its submission.

No. R. 2148—Ft. 29-16-2, dated 18th August 1916.

30. *Register in Forms Nos. 32 and 33 for Receipts and Issues of Correspondance.*—Maintained.

31. *Destruction of Useless Documents.*—The work is taken in hand and a list is now under preparation. The District Forest Officer is requested to get through the work at an early date.

32. *Neatness in keeping Office.*—Fair.

33. *Punctuality in Correspondence.*—Fair.

34. *Custody of Stationery.*—With the clerk. The required registers have been duly maintained and posted up.

35. *Forest Department Code and Forest Regulations.*—Kept corrected up-to-date.

36. *Register of Forest Offences.—Form No. 35.*—Maintained. The number of cases reported since 1st July 1915 is 101, of which 2 cases have been ordered to be prosecuted. Of the rest, 98 cases have been compounded, the accused in one case having been let off with a warning.

Compensation has got to be recovered in 11 cases. Ten of June 1916, and 1 of February 1916.

With regard to last year's cases, the District Forest Officer's attention is invited to the following, in which compensation remains unrecovered.

		Rs.
Case No. 75—3, dated 30-5-15	...	3
94—29 do 28-6-15	...	20

The District Forest Officer will explain why the defaulters in the cases referred to, were not prosecuted criminally, when they failed to pay up the compensation levied, within a month *vide* Government Order No. 661-8—6537, dated 24th April 1903.

On the "B" Forms, the Range Officers should, in future, quote the number and date of Treasury challans while returning the case records to the District Forest Officer.

Col. 13 of the Register is still left blank, although the omission was pointed out at the last inspection.

37. *Sandal Damage Register.*—Not maintained. This is highly irregular.

38. *Circular Files.*—Maintained.

39. *Acquittance Roll.*—Maintained. Checked the entries with those in the Cash Book and found to agree.

40. *Service Registers.*—The District Forest Officer is taking action to open fresh service registers in place of those lost by Mr. P. S. Govinda Rao. His attention is, however, drawn to the observations conveyed on the subject in Government Order No. 9823-5—Ft. 108-15-5 of the 20th April 1916, with a request that the connected records should be submitted early with a brief report as to how long it would take for making good the loss by opening fresh registers with authenticated particulars. All the Service Registers that are reported to be in the Range Offices should be withdrawn and filed in the District Forest Office. For Iascar Mudda, a Service Register should be opened immediately.

41. *Gazette Files.*—Bound up to December 1915.

42. *Diary Files.*—Bound up to June 1915.

43. *Security Deposits from Rangers and other Subordinates.*—A register in the prescribed form has been maintained and posted up. Recoveries are being made regularly from Foresters Jayachar, Abdul Wahab and K. Krishna Rao. The deposits from other Subordinates in the district have been fully recovered. The Security Deposit Pass Book of Forester K. Venkata Rao is due from the Kadur District and it is better if security is taken from Acting Forester D. Subba Rao, as well. The District Forest Officer is requested to recover security deposit from the license vendors to the extent of Rs. 150 each, as per Government Order in cases where the amount furnished is less. The security deposit due from minor forest produce contractor Abdul Sattar and also from the seven tangadi contractors should be recovered without further delay.

Efficiency.—The District Forest Officer should pay more attention to office work.

1	Hanumanthaiya, patel of Talgatpur.	11th June 1911	Requests that right of way to the cart-tracks leading to Gunakal and Badamanavarthe Kaval may be admitted	.....	Claims 1 and 2. The proposal is to constitute the Uttarahalli Manavarthe kaval consisting of survey Nos. 12 and 13 into a State Forest. This is one of the "Excess Kavals" referred to in Government Order No. R. 2737-40 Ft. 52 11-8, dated the 19th November 1912. It is in evidence that it is in the possession of the British Military authorities and that the raiyats are enjoying only the right of way to the cart-tracks leading to Gunakal and Badamanavarthe Kaval respectively, and the right to worship the Muniswara in a spot dedicated to it in Survey No. 12. I admit these claims and direct that the demarcation line as now laid out be confirmed. C. VENKATA RAO, Forest Settlement Officer. 20th June 1911.	.....

						water. The Range officer contends that they can exercise the right when they purchase the right to graze the stubble in the said Kaval. The above sources of water-supply are situated almost at the extreme corners of the Kaval and are connected by path-ways, which fact itself is an indication that the right to water is being exercised by the raiyats of the villages situated in the neighbourhood of the reserve. Para 4 of Government Order No. Fl. 4457-506—G. F. 55-15-2, dated 8th March 1916, directing that the establishment of Collecting Savings Banks be deferred for some time.

Letter No. 7629, dated 1—4th April 1916, from the Comptroller, submitting a modified scheme for the working of a Collecting Savings Bank in the Bangalore City, and soliciting sanction thereto as an experimental measure with a view to opening similar institutions in district headquarters and other large towns in the State, if the experiment proves a success.

Order No. Fl. 1275-324—G. F. 55-15-4, dated 30th August 1916.

The starting of a collecting Savings Bank in the Bangalore City on the lines indicated by the Comptroller is sanctioned as an experiment for one year.

2. The entertainment of an Inspector on a pay of Rs. 40 plus a conveyance allowance of Rs. 15 per mensem for the charge of institution is also sanctioned. A security of not less than Rs. 500 should be taken from him. No commission in addition to the pay and allowances will be paid for the present. The forms and registers required may be printed in the Government Press. Detailed rules regarding the institution are appended to this order.

3. The charge on this account during the current year will be met out of the sum of Rs. 10,000 provided in the budget for developing Village and Feeder Savings Banks.

J. S. CHAKRAVARTI,
Financial Secretary.

No. Fl. 1275-324—G. F. 55-15-4, dated 30th August 1916.

RULES FOR THE WORKING OF THE COLLECTING SAVINGS BANK, BANGALORE CITY.

Object.

In the Bangalore City, there is only one Government Savings Bank at the District Treasury and a large proportion of the public do not find it convenient to go and wait there to deposit or withdraw money. Therefore the establishment of a Branch Bank, styled the Collecting Savings Bank, is deemed necessary to afford the entire public full facilities to lay by their savings, however small, and thereby foster their habits of economy and thrift. It will be worked under the rules described below.

Part I.

General Rules of Business.

1. *Officer in charge.*—The Collecting Saving Bank, Bangalore City, will be a branch of the District Savings Bank and will have its office at the premises of the District Savings Bank. The Officer in charge of the District Savings Bank will also be the Officer in charge of the Collecting Savings Bank.

2. *Collector.*—It will be in immediate charge of an official of known probity and established character, who will work under the control of the Officer in charge of the District Savings Bank. He will be styled as Collector and will be required to give such security as may be fixed by the Deputy Commissioner. He will be provided with a distinctive uniform and a Letter of Authority signed by the Deputy Commissioner, duly specifying his duties in English and Kannada.

When necessary, more than one Collector will be employed each with separate jurisdiction.

3. *Places and hours of business.*—The Deputy Commissioner will divide the City and its extensions into convenient parts and the Collector will in places approved by the Deputy Commissioner conduct business on days of the week specified by the Deputy Commissioner for each of such parts from 7 to 10 A.M., daily.

The Collector will also visit on such specified days private residences of persons who require him to do so to deposit or withdraw money.

He will also visit all small offices, institutions and factories, as often as possible and at least once a week, between 3 and 5 P.M. He will select for the purpose pay days in offices and factories as far as possible.

He will be accessible to the public in the market or other business places on days and hours to be fixed by the Deputy Commissioner.

A depositor may, irrespective of his place of residence, transact business with the Collector in any and every place of business specified by the Deputy Commissioner during business hours.

4. *Who may deposit or withdraw money.*—All persons having Savings Bank Accounts of their own or on behalf of minors in the District Savings Bank, as also those who intend to open accounts in it either on their own behalf or on behalf of minors, may transact business through the Collector in exactly the same manner as they would do at the District Savings Bank under the Rules of the Mysore Government Savings Bank in force from time to time.

5. *What may be deposited.*—Any sum which is not less than one anna or which does not involve fractions of an anna may be deposited. There is no limit to the amount that may be deposited in a year or to the amount that may be held at any time by a depositor.

6. *First deposits how received.*—When a person wants to open an account, he will fill in an Index card and give it to the Collector. The latter will see that the form is correctly filled in and examine the money brought by the depositor.

The money will then be dropped into the Government box kept by the Collector, who will simultaneouly make the necessary entries in the trifoil receipt and in the Pass Book to be issued to the depositor after it is countersigned by the District Savings Bank Officer.

The Collector will give next two copies of the receipt to the depositor who will drop one of them into the box after examining it and retain the other with him as voucher for the money received from him till the return of the Pass Book from the District Savings Bank.

7. *Subsequent deposits how received.*—Subsequent deposits will be dealt with similarly; but fresh Index Cards will not be taken in such cases and the Pass Books will not be sent to the District Savings Bank.

The production of Pass Books with the subsequent deposits will not also be insisted on; but the deposits will be received, the usual receipt being given at the time and the Pass Book

written out when produced next; the Collector will in such cases indicate the Pass Book or Account number of the depositor from his Alphabetical Index and make a note that the Pass Book was not produced both on the counterfoils of the receipt given to the depositor and on the original thereof, striking it off when the Pass Book is presented and the necessary entries are made in it.

A depositor having opened an account through the Collector may himself go and transact businesss directly at the District Savings Bank, whenever he finds it convenient or necessary to do so. Conversely, a depositor, who has already opened an account in the District Savings Bank, may transact business with it through the Collector, whenever he finds it necessary to do so, in exactly the same manner as he would do in the District Savings Bank.

8. *How transactions are recorded at the Treasury.*—It will record the transactions in the Ledger and Journal against the dates on which they actually take place at the Treasury, and attest the entries in the Pass Books whenever they are produced thereat, after comparison with the Ledger. It will give an account number to every depositor who has opened an account through the Collector and hold the amounts paid by him from time to time at his credit for repayment with interest, either wholly or in part as may be required.

9. *How to withdraw money.*—When a depositor wants to withdraw money, he will give the Collector his Pass Book together with a withdrawal form duly signed by him, noting the particulars required.

The Collector will forthwith return the Pass Book to him, after verifying from it that the amount required is at the credit of the depositor. He will draw the money on such withdrawal forms from the Treasury and pay it to the depositors when he next meets them either by appointment or in the ordinary course of business making the necessary entries in the Pass Books.

10. *Urgent cases of withdrawals.*—In urgent cases, the Collector will make repayments of Rs. 10 and under immediately on demand. In such cases, special forms of withdrawal across which the words "For repayments made by the Collector immediately on demand" have been printed in red ink will be used.

In urgent cases, where the amount required to be withdrawn is in excess of Rs. 10 the depositor himself may go to the Treasury and withdraw money therefrom, obtaining, in case his identity cannot be verified by the Treasury, the countersignature of the Collector on the withdrawal voucher. The Collector will be available to all such depositors at the District Savings Bank between 2 and 3 P.M., every day except on Sundays and holidays.

The District Savings Bank will make the repayments after attesting all the entries in the Pass Book, duly verifying them with the Ledger.

11. *Interest how calculated and allowed.*—Interest is calculated on the lowest amount at the credit of every depositor between the fourth day and the last day of the months as recorded at the Treasury.

Interest is calculated at the rate of one pie for every two rupees per month. Fractions of two rupees do not earn interest.

The Collector will get together all the Pass Books of the depositors and take them to the Treasury for the entry of the interest, or the depositors themselves may do so, as soon as the production of Pass Books for entry of interest is called for by a notice in the *Mysore Gazette* once each year. If the Collector takes them to the Treasury, he will give a receipt therefor showing the name of the depositor, his account number and the balance at his credit. He will return the Pass Books to the depositors when he meets them next either by appointment or in the ordinary course of business taking back the receipts from them with a certificate recorded by the depositors that the Pass Book was returned and found correct.

12. *Verification of Pass Book balances.*—At the end of each official year, the Comptroller will obtain from the depositors their Pass Book balances for verification with those of the Ledgers. It is also open to the depositors to have such verifications effected from time to time either at the Comptroller's Office or the District Savings Bank either in person or by correspondence.

13. *General.*—All matters not covered by these rules will be governed by the rules of the Mysore Government Savings Bank in force from time to time.

PART II.

Procedure.

1. The name of the official appointed as Collector, the places at which he works, as also the days of the week and the working hours in each of such places, will be notified to the public in the *Mysore Gazette* by the Deputy Commissioner from time to time.

No. Fl. 1275-324—G. F. 55-15-4, dated 30th August 1916

2. A copy of such notification together with the Letter of Authority given to the Collector by the Deputy Commissioner will be suitably mounted and exhibited to the public in a suitable manner, whenever and wherever the Collector conducts the business of the Bank. Copies of such notices should also be freely supplied to the public.

3. The Collector should invariably be in his uniform while on duty, and should be polite to all people who transact business and make enquiries and issue the pamphlets freely to all likely depositors. He should attend to the people with all possible despatch.

4. He will be provided with a small box, duly locked and sealed, containing a slit to drop coins or notes brought by the depositors and the counterfoils of receipts given by the Collector to the depositors for the moneys received from them. The box will be suitably labelled with the words "Collecting Savings Bank, Bangalore City." He is personally responsible for the box and the contents dropped into it by the depositors.

5. The Collector will attend the District Savings Bank between 2 and 3 P. M. every day, except on Sundays and holidays, where the money will be taken over from the box and credited to the several depositors' account after comparison with the duplicate receipts dropped into the box by the depositors and with the cash book maintained by the Collector.

6. To meet urgent but small demands of Rs. 10 and under, of depositors who cannot wait till the Collector can meet them next, the Collector will be provided with an imprest of Rs. 50 which he may recoup every day at the Treasury on presentation of withdrawal forms the amounts of which he has paid.

7. The Collector will account for the imprest daily at the District Savings Bank either in cash or by vouchers or by both. The imprest will never be mixed with the moneys received from the Treasury for repayment to the depositors; but it will be kept in a distinct bag from that used for the other moneys. Nor can the latter be used for the purpose for which the imprest is intended. No separate account of Imprest will be kept as all transactions which pass through him will be in the cash book.

8. He will maintain a stock of:—

(1) Index cards.
(2) Withdrawal forms (special and ordinary).
(3) Bilingual Pass Books.
(4) English and Kannada pamphlets, containing the rules framed for the working of the Bank.

9. He will also maintain:—

(1) A cash book to be written and closed daily by 2 P.M.
(2) A bilingual receipt book in triplicate, with pages machine numbered, which should be surrendered to the District Savings Bank on completion and before a new book can be issued to him.
(3) An alphabetical index of the names of depositors who transact business through him. The index will show the account numbers given to their accounts in the Treasury.

10. The Head Accountant of the District Treasury and the Officer in charge of the District Savings Bank will examine and attest the entries in the Pass Books whenever they are presented at the Treasury and check the cash book of the Collector daily with the counterfoils of receipts dropped into the box and attest the same.

11. The District Savings Bank will maintain a register showing the Issues, Consumption and Balance of Pass Books on hand with the Collector, and a similar account of the books of trifoil receipts issued to him. These should be checked frequently by the Head Accountant, District Treasury, with the actual number of pass books and trifoil receipt book in the possession of the Collector, and the Officer in charge of the District Savings Bank will attest these registers once a month in token of their correctness.

12. The cash book will be in monthly volumes and should be surrendered to the District Savings Bank at the end of the month.

13. The pay of the Collector as also any commission payable to him on the recommendation of the Deputy Commissioner for the successful working of the Bank will be met out of the allotment made annually for the purpose and paid to the Collector on bills countersigned by the Deputy Commissioner and preaudited by the Comptroller.

Order No. Fl. 1194-243—G. F. 10-15-98, dated 28th August 1916.

It has come to the notice of Government that some officers are under the impression that the rules contained in Government Order No. Fl. 2760-809—G. F. 214-10-88, dated 23rd December 1913, apply merely to articles denoted by the term "Stores" as used in some departments in a restricted sense. This, it is observed, is a mistake, due apparently to the fact that the term "Stores" has been used for the sake of brevity in the abstract of the Government Order. The order in question is intended to apply to all kinds of articles whatsoever, whether manufactured or unmanufactured.

Report on the Administration of Jails and Lock-ups.

No. J. 625-34—Pris. 4-15-4, dated 15th August 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 798–91-07, dated 4th May 1916, from the Inspector-General of Prisons in Mysore, forwarding a Report on the Administration of Jails and Lock-ups during the calendar year 1915.

Order No. J. 625-34– Pris. 4-15-4, dated 15th August 1916.

Prison Population.—The total number of prisoners of all classes admitted during the year under report was 10,256 against 10,464 in the previous year. Including the number in confinement at the end of 1914, the prison population amounted to 11,605 of whom 10,380 were discharged. The daily average fell slightly from 1,251·06 to 1,244·84.

2. *Convicts.*—The number of convicts admitted during the year was 2,176. A gratifying feature of the report is the decline in the number of juvenile offenders which fell from 49 or 1·93 per cent in 1914 to 19 or 0·87 per cent. The number of convicts with sentences not exceeding one month continues to be disproportionately large as in previous years, being 1,005 or 46·3 per cent. Although the percentage of such short term convicts has fallen from 57·1 per cent in 1912 to 46·3 per cent in the last year, Government consider that there is still scope for improvement as the corresponding figures in the British Indian Provinces ordinarily vary from 24·6 per cent to 39·7 per cent. Convicts with previous convictions form only 15·37 per cent of the total admissions and the majority of these short term convicts must therefore be first offenders. Government think that, by a more liberal use of the provisions of Section 562 of the Code of Criminal Procedure, their number may be further reduced.

3. *Undertrial Prisoners.*—Of the total of 7,287 prisoners of this class 4,940 or 67·7 per cent were acquitted. The percentage of persons against whom prosecutions failed has risen considerably of late as will be seen from the figures in the margin. The reason for this increase should be investigated.

1914	... 63·1	per cent.
1913	... 54·5	do
1912	... 60·1	do

4. *Prison Offences.*—The number of prison offences committed by convicts increased from 304 to 408. This is attributed to the greater care taken in detecting them.

5. *Escapes.*—Government note with satisfaction that there were no escapes from the Jails during the year.

6. *Sickness and Mortality.*—There is a slight increase in the admissions to the hospitals in the year under report. Still, the total number, *viz.*, 477, compares favourably with the average for the previous quadrennium (*viz.*, 523). The admission for malarial fever was 300 in 1912, 183 in 1913, 53 in 1914, and 113 in the year under report. The number of deaths increased from 18 to 22.

7. *Expenditure.*—Owing to decreased expenditure under "Establishment, dietary and hospital charges and contingencies" the average cost per head fell from Rs. 90-11-11 to Rs. 85-5-6.

8. *Jail Industries.*—The Inspector-General reports that proposals for the development of industries in the two Jails of Bangalore and Mysore have been called for and that effective steps will be taken to place the industries on a more economical and satisfactory basis. Proposals have since been received for the

improvement of industries in the Mysore Jail and are under the consideration of Government. The Inspector-General will be asked to expedite the submission of proposals for the improvement of industries in the Bangalore Jail.

9. *Religious Education.*—Government are glad to note that gentlemen belonging to the several religious agencies mentioned in paragraph 41 of the report held weekly discourses for the benefit of the prisoners.

* Printed in extenso as appendix.

Order No. 1030-41—L. B. 14-16-2, dated 2nd August 1916.

The memo of instructions and the set of questions are approved and appended to this order.

2. Government hope that this will enable the Finance Committees of District Boards to thoroughly and carefully check the District Fund Accounts every month.

3. In order to ensure that the monthly accounts are punctually and properly prepared and the audit thereof by the Finance Committees is regularly conducted, Government direct that the fair copy of the monthly account to be sent to the Comptroller every month be signed by the Chairmen or Members of the Finance Committees in token of the examination of the accounts. The audit notes with the remarks of the Vice-President or the President should be placed before the District Boards for review at their meetings and copies thereof sent to Government along with the Proceedings of the Boards.

4. The Comptroller is requested to arrange with the Superintendent of the Government Press and Stationery to get a sufficient number of copies of the memo of suggestions and the list of questions printed and supplied to the Presidents.

APPENDIX.

A. SUGGESTIONS FOR AUDIT.

Memo of instructions for examination of District Fund accounts every month by Financial Committees appointed under Section 22 (1) of the Mysore Local Boards Regulation, II of 1902.

The general principles of examination, as contained in para 137 of the Rules, under the Local Board Regulation, published as Notification No. 2360—L. B. 265-12-2 of the 2nd September 1914 are:—

(1) Whether the books and accounts prescribed for the District Board Office have been posted to the end of the month for which the accounts are submitted,

(2) whether the Pass Book has been checked with the cash book and made to agree;

(3) whether all payments are made to the porper persons to whom they are due and are duly supported by vouchers and so recorded that a second claim on the same account cannot be admitted, and whether the vouchers are in due form and have been duly cancelled;

(4) whether the revenues collected during the month by the Local Board agency have been duly remitted to the Treasuries in the same month;

(5) whether every item of expenditure is covered by due authority and budget provision;

(6) whether all necessary steps have been taken for adjustment of outstanding advances;

(7) whether cheques issued on account of contributions for Dispensaries, etc., are for the prescribed amounts;

(8) whether the objections taken by the Comptroller are promptly attended to;

(9) whether the totals in the columns of "transfers" on both sides of the cash book correspond, and

(10) generally, whether the accounts have been carefully, accurately and properly prepared.

Note.—The above general instructions require to be materially amplified.

2. Before taking reference the account for examination the Finance Committee should have the following books of reference:—

(i) The Local Boards Regulation II of 1902 with amendments up-to-date,

(ii) Rules issued under the Regulation with amendments up-to-date,

(iii) The latest administration report,

(iv) Sanctioned budget for the year current,

(v) The District Board Proceedings book,

(vi) Office order book of the President's Office, and

(vii) File of circulars issued by the Comptroller and the Government.

3. The Committee should first satisfy themselves whether their previous report was considered by the District Board and necessary action taken in respect of it.

4. The examination to be conducted by them may be divided into four parts, *viz.*:—

Part I. The checking of every entry in the few important registers. Cash book, Petty cash book, etc., with reference to original chellans and vouchers and other records.

Part II. The check of expenditure vouchers.

Part III. The test examination of receipt items.

Part IV. Lastly, a general review and examination of the monthly accounts and other registers.

5. Definite suggestions regarding the work to be done under each of the above heads are given below and the set of questions relating to each part should be taken and answered in accordance with those instructions.

PART I.

6. The following books and records should be examined in detail for the months under examination in accordance with the instructions given below and the set of questions answered simultaneously with such examination:—

i. The cash book (Form 5).

ii. Petty cash book.

iii. Imprest account (Form 21).

iv. Acquittance roll.

v. Bill or voucher file (for expenditure incurred).

vi. Receipt books, remittance registers or other original records evidencing receipt of money.

7. The cash balance on hand in the President's Office should first be examined and verified with the book balance worked up-to-date of check in the petty cash book. It should also be seen whether a petty cash book as distinguished from the cash book is maintained and whether the distinction between the two books is correctly understood.

The cash book is intended to shew all receipts and payments pertaining to the District Fund and is the principal account with reference to which the abstract registers of receipts and payments, the monthly account, the deposit and other subsidiary registers are either prepared or verified.

The petty cash book on the other hand, will, if properly maintained, ensure the proper utilisation of all money received in the President's Office (either in cash or by cheque) whether as creditable to the District Fund, or on account of payments to be made from that Fund to the establishment as pay or to contractors, etc., for work done.

8. The entries in the cash book should be examined in detail, item by item, the receipt entries with the original chellans, remittance memos, receipt books or other original records produced in support of them, and the debit entries with the vouchers serially numbered for each month and filed.

9. In the petty cash book the receipt entries relating to revenue received in the President's Office will be checked with the credits in the general cash book, while those regarding money and cheques received for disbursement will be checked with reference to the expenditure entries in the cash book. The debits in the petty cash book are to be examined with reference to payees' receipt or other legal acquittances obtained.

10. The further examination of the several books, etc., mentioned in para 6 is clearly indicated in the printed set of questions.

Part II.—(*Expenditure Audit*).

11. As under existing orders the pay of establishment in all Taluk Boards, except the President's office of the Board, is drawn on bills, the system of examination of expenditure vouchers will not be the same in all cases.

12. In the case of President's Office, where all claims including establishment pay, etc., are paid by the President by means of cheques, and all the paid bills are filed in his office, the auditors will have full materials for a thorough and complete audit of expenditure, and for satisfying themselves by such examination that all expenditure is covered by provision in the budget, that it is incurred under proper sanction, and that payments made have been so recorded as to guard a second claim being preferred and paid.

13. The printed set of questions 1-24 to be answered sufficiently indicate the procedure to be adopted by the Committee. The arithmetical checking of the entries in the Public Works bills and the measurements may be done by the audit clerk.

Part III.—(*Audit of Receipts*).

14. This is an important item of work and the Committee should pay their special attention to it. Not much of technical knowledge is here required and the Finance Committee have a distinct advantage in this respect over the Government auditors in that they can bring to bear their local knowledge, detect cases of malpractices of keeping back money collected, of making alterations in receipts, of peculation by subordinate employees, omissions of demand, etc.

15. The Finance Committee should see generally that—

1. a regular record of all sums due to the Board is maintained,
2. that adequate steps are taken for their regular and prompt collection, and
3. that all items of money received by the employees have been duly brought to account in the Board Office and remitted to Treasury without undue delay.

16. The Committee should first ascertain and note the various items of revenue and receipts of the Board as entered in the budget and see whether proper demand and collection statements have been maintained in respect of all of them and in the prescribed forms.

Part IV.

17. No special instructions in addition to what have already been given seem necessary in respect of the work under this part, and the printed set of questions indicate fairly clearly, the line of procedure to be adopted.

18. The Finance Committee may of course examine any registers or other records, not specifically mentioned here, with a view to detect and put a stop to irregularities or malpractices that may be suspected to have been committed, and frame additional questions for being answered by them.

19. After the completion of the audit above described the members of the Committee should affix their signature in the general cash book in token of their examination, and prepare a complete set of answers to the printed questions, Parts I to IV, for submission to the District Board and needful further action. No separate audit report need be drawn up by them except when they consider it necessary to refer to irregularities noticed by them or to make suggestions for the consideration of the Board.

B. QUESTIONS TO BE ANSWERED BY THE FINANCE COMMITTEE.

Part I.

1. *Cash Book, Form No. 5, Rule 83.*

(1) Is it posted up-to-date?

(2) Has it been closed for the month under audit, signed by the President or Vice-President, and the closing balance agreed with the Treasury pass book as required in Rule 124?

(3) Has a chellan been obtained for every entry of receipt and have all such chellans been properly filed? Mention the omissions, if any.

(4) Has any item of money which appears to have been collected by reference to the original receipts or other records been omitted to be brought on the cash book or remitted to treasury? If so, why?

(5) Is a bill (voucher) obtained in support of every debit entry and is it serially numbered?

(6) Are all the bills, supported by proper payees' receipts either separately taken or recorded on the bills themselves?

(7) Mention the instances where proper payee receipts have not been obtained and the reasons therefor as far as they can be ascertained.

2. *Petty Cash Book.*

(1) Is it written up-to-date and are the balances struck daily and verified?

(2) Has every entry in it been initialled by the President or Vice-President.

(3) What is the balance of cash, cheques, etc., on hand on the date of examination and does it agree with the balance as shown in the book?

(4) In whose custody is the money kept; if the money is in the custody of any official subordinate to the President or Vice-President has proper security been obtained from him?

(5) What are the details for the cash balance on hand? Mention the amounts under the several heads, revenue received but not remitted, undisbursed pay, etc., imprest and, other items.

(6) Has any amount of money received in cash or by cheque on account of pay or travelling allowance or as payable to contractors been kept on hand for over a month and, if so, why?

(7) Mention the reasons for keeping on hand of any items of revenue or other receipts unremitted to treasury.

(8) Mention the omissions, if any noticed of instances of money or cheques received in the office but not recorded in the petty cash book.

(9) Are the recoupments of imprest and the daily total of receipts and payments on account of pay and travelling allowance regularly incorporated in the petty cash book?

3. *Imprest Account or Contingent Register, Form No. 21.*

(1) Is a regular imprest account or permanent advance or contingent register maintained and posted up-to-date?

(2) Does the imprest balance shown in this book agree with the details shown in reply to question 2 (5)?

(3) Is the imprest regularly recouped at least once a month?

(4) Are there any advances or irregular payments made out of it, and unadjusted?

No. 1030-41—L. B. 14-16-2, DATED 2ND AUGUST 1916.

4. Acquittance Roll.

(1) Has an acquittance roll been maintained for recording the disbursement of pay and travelling allowance to employees, and are regular acquittances taken in all cases (with receipt stamps also for payments exceeding Rs. 20) ?

(2) Does the total of undisbursed pay, etc., as per this book agree with the balance shown in reply to question 2 (5) ?

(3) Is undisbursed pay outstanding at the end of each month invariably shortdrawn in the next month's bill.

(4) Is the establishment pay drawn as per scale provided for in the budget, and shown in an establishment pay or check register ? Form No. 7.

(5) Is insurance premium payable by the establishment regularly recovered and remitted to treasury.

5. File of bills and vouchers.

(1) What are the records produced for examination ?

(2) Are they in continuous series ?

6. Receipt books, etc.

(1) What are the several books produced for examination ?

(2) Are they in continuous series ?

(3) Are printed receipt books having counterfoils been invariably used in respect of all cases of receipts received from the public ?

PART II.—*Expenditure Audit.*

(1) Are all the bills serially numbered for each month according to dates of payment, and are the references given in the cash book ? *Vide* Rule 110.

(2) Do they bear the pay orders ? *Vide* Rule 109.

(3) Are all of them supported by proper payees' receipts or other legal acquittances, either recorded on them or obtained separately ? If not, mention the omissions.

(4) Are the establishment bills drawn according to the scale provided for in the sanctioned budget and entered in an establishment check or pay register ? (Form No. 7, Rule 86) Are they copied out exactly in the acquittance roll ? *Vide* also question 4 (4), Part I.

(4*a*) Are the pay and allowances drawn in accordance with rules ? *Vide* Rule 86.

(5) Is every establishment bill (original) accompanied by an absentee statement or contra certificate ?

(6) Is an increment or conveyance certificate attached in all cases where the bill includes claims on account of periodical increments granted or conveyance allowance drawn ?

(7) In the supplemental bills drawn for arrear claims are the references to the original bills in which the claims were held over for future payment or in which undisbursed pay was refunded, invariably given ? Are there any arrear claims relating to pay travelling allowance commission to pound-keepers, shanbhogs and patels and lighting charges unnecessarily pending ?

(8) Has note of the payment of such claims been made against the corresponding entry in the original bill to guard against second claims being prepared and passed ?

(9) In cases of arrear claims exceeding two years has sanction of Government been obtained ?

(10) Are any travelling allowance claims paid without Comptroller's authority ? Rule 86 (*b*).

(11) Are all travelling allowance bills prepared and paid copied out in the acquittance roll or in a separate register so as to guard against double claims being preferred ?

(12) Are the amounts drawn on contingent bills Form No. 9, Rule 86(*c*), provided for in the budget ?

(13) Has every contingent charge been duly sanctioned by competent authority, the President or other subordinate officer authorised by him, the Board or Government as the case may be in accordance with Rules 154 to 157.

(14) Have the purchases of articles of a non-perishable nature been duly entered in a stock account ?

(15) In respect of pound and other commission bills, bills for refund of feeding charges, refund of net sale proceeds of impounded cattle sold and credited to revenue as lapsed, refund of revenue received and refund of deposits, etc., have the bills been prepared in the prescribed form ?

(16) Have references been invariably given in them to the original audit entry in the office cash book or other subsidiary registers, and note of the claim having been preferred made in the latter to guard against double payment?

(17) Are the bills for public works prepared in the prescribed printed Form No 16 and are they arithmetically correctly made out in accordance with the entry in the measurement books (*vide* Rule 102) and the Register of Public Works Form No 14

(18) Is reference to the sanctioned estimate invariably quoted on every bill?

(19) Has any public works bill been paid in respect of any work without a duly sanctioned estimate, or in excess of such estimate or otherwise than in accordance with such estimate.

(20) Do the rates passed in the bill exceed in any case those entered in the schedule of rates Form No. 12, or the sanctioned estimates? If so details of such excesses should be given.

(21) Has any public works payment been made without proper provision or in excess of the provision made in the budget?

(22) Is the calculation of the entries of total quantity in the measurement books correctly made out in the cases (a certain percentage) selected for examination?

3. *Advances, etc.,*

Are there any advances other than permanent advances made from the funds of the Board, and, if so, has an account been maintained to watch their prompt recovery?

Reduction of the Rate of Octroi on Betel Leaves.

No. 1060-9—Ml. 79-14-59, dated 3rd August 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Petition from the merchants of Vadigenhalli and Devanhalli in the Bangalore District, complaining that the levy of octroi on betel leaves in some Municipalities at 2 pies per bundle of 100 leaves is a very high rate of impost and praying that the levy may be abolished or if that is not practicable the duty may be ordered to be levied at 1 pie per bundle of 100 leaves uniformly in all the Municipalities in which it is levied.

2. Circular letter No. 8930-9—Ml. 79-14-40 of 14th May 1915, to the Deputy Commissioners of Districts and Presidents of the Bangalore and Mysore City Municipal Councils, observing that the rate of 2 pies per bundle of 100 leaves appears to be too high and requesting them to report in consultation with the Municipal Bodies concerned as to whether it is not desirable to reduce it to 1 pie.

3. Replies to the above circular.

Order No. 1060-9—Ml. 79-14-59, dated 3rd August 1916.

Of 35 Municipal Bodies which levy octroi at more than one pie per bundle of 100 betel leaves, 23 including the Mysore City Municipal Council agree to reduce the rate to one pie and 11 including the Bangalore City Municipal Council do not agree to the reduction, while the opinion of the Chamrajnagar Muncipal Council has not been submitted.

2. Government consider it desirable that a uniform levy at one pie per bundle of 100 leaves should obtain throughout the State. As a first step towards attaining such uniformity, Government are pleased to direct that in the 23 Municipalities (noted in appendix A) the Municipal Bodies of which agree to this course, the rate of one pie per bundle of 100 leaves be adopted from 1st September 1916. Such of these bodies as have been constituted under the Municipal Regulation should be requested to take prompt action to suitably alter the rules framed by them under the Municipal Regulation. Intimation of the change should be widely published in all the areas affected by this order.

3. The reduction of the rate to one pie is commended to the Municipal bodies of the remaining 12 localities specified in Appendix B.

Occupation of "the Staff Quarters" at Mysore.

No. G. 2276-323—Mily. 46-16-1, dated 19th August 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

No. G. 2276-323—Mily. 46-16-1, dated 19th August 1916.

The following revised rules are laid down for the occupation of the Mysore Staff Quarters."

General Rules.—

(1) All European Gazetted Officers in Mysore Service and Mr. A. R. Banerji, M.A., I.C.S., C.I.E., Member of Council, shall be entitled to occupy the Staff Quarters at Mysore.

(2) They will be provided with fully furnished quarters, including lighting, cutlery, crockery, glass, table-linen, blankets and bed-linen.

(3) Officers wishing to occupy the quarters should give at least 48 hours' notice to the Private Secretary to His Highness the Maharaja, who will allot them a room if one is vacant. Rooms will be allotted in the order in which they are applied for.

(4) Officers occupying the quarters should bring their own servants and make their own feeding arrangements.

(5) During the Birthday and Dasara seasons, officers will be allowed to occupy the rooms which they engage during the whole period of their stay in Mysore. At other times, an officer may not occupy a room for more than three days if any other officer requires it.

(6) A rent of Re. 1 per diem will be charged for each bed room occupied.

(7) The two sitting rooms will be available for the common use of all officers occupying the Bungalow.

(8) The Government reserve the right of using the Staff Quarters at any time, temporarily, for the accommodation of State Guests. During such periods, of which notice will be given by the Private Secretary to His Highness the Maharaja these quarters will not be available for the Officers referred to in Rule 1.

(9) During the Birthday and Dasara seasons, *i. e.*, during the sittings of the Economic Conference and the Representative Assembly, when the accommodation in the building itself may not be sufficient, furnished tents will be provided near the Staff Quarters for the use of officers, as far as possible.

(10) European travellers of recognised position may be permitted by the Private Secretary to His Highness the Maharaja to occupy the Staff Quarters under these rules, for periods not exceeding 48 hours, at a time, provided that the rooms are vacant and are not required by any officer in the State Service.

(11) The general control and administration of the Staff Quarters under the above rules will vest in the Private Secretary to His Highness the Maharaja.

Subsidiary Rules.—

1. A rent of Re. 1 will be charged per day for each bed room occupied and Rs. 1-8-0 per day if two or more persons occupy the same room.

2. Occupants passing the night at the Staff Quarters will pay the full fee.

3. Persons occupying the building between sunrise and sunset only are subject to half fee.

No. G. 2276-323—Mily. 46-16-1, dated 19th August 1916.

4. A printed register will be kept in the building, and the occupants are requested, before they vacate the building, to enter in the register their names, dates and hours of arrival and departure and the amount of fees including other demands, if any, under Rule 5 *infra* (together with the particulars thereof) paid to the care-taker.

5. Occupants will be held responsible for any damage done by themselves or their servants to the building or furniture or other article. All articles injured or broken must be paid for by them. The amount will be fixed by the Superintendent, Government House, subject to the approval of the Private Secretary to His Highness the Maharaja whose decision in the matter will be final.

6. All fees collected will be remitted to the Mysore Taluk Treasury once a week by the care-taker in charge and the necessary Treasury certificate obtained in the printed register referred to in Rule 4.

7. The care-taker in charge will assist the occupants in procuring supplies and conveyances for ready money.

8. All fees and other demands under Rule 5 *supra* must be paid by the occupants before leaving the building, any irregularity and inconvenience being reported to the Private Secretary to His Highness the Maharaja.

9. All complaints regarding accommodation, furniture and servants attached to the Staff Quarters should be made to the Private Secretary to His Highness the Maharaja by letter or to the Superintendent of the Government House who will be on the spot.

10. If the building is urgently required by Government for any purpose, it should be vacated at once on receipt of intimation to that effect.

11. The Superintendent of the Government House will inspect the Staff Quarters as often as possible and see that the building is kept neat and tidy. He will also exercise control over the establishment attached to the Staff Quarters and will be responsible for the prompt collection and remittance to the Treasury of the fees and other dues levied from the occupants.

12. The Superintendent of the Government House will maintain a register showing the furniture, vessels and other articles supplied to the Staff Quarters. He will submit to the Private Secretary to His Highness the Maharaja a monthly statement of fees recovered and credited to Treasury on account of the occupation of the Staff Quarters.

13. A printed visitors' book will be placed in the Staff Quarters.

Letter No. 1970, dated 6th March 1916, from the Director of the Department of Mines and Geology, submitting for orders certain alterations considered desirable in the form of mining leases.

Order No. G. 2936—Geol 5-15-10, dated 29th August 1916.

The first alteration suggested is that the annual mining rent payable by the lessee should be set off against the royalty on the output of the year. This suggestion has been already considered and disposed of in the negative in Government Proceedings No. G. 16129, dated 27th May 1916.

2. The next proposal is to make clear the provision relating to royalty payable on dividends when more than one lease is held by a lessee, *viz.*, that the royalty payable on divisible profits shall be calculated on the divisible profits of each lease or on the total divisible profits from all the leases whichever is more convenient. This suggestion is approved.

3. The last proposal is to provide for the forfeiture of the fee received with an application for a mining lease when the applicant is offered the lease applied for, but fails to complete the application in other respects thereafter. The fee in such cases should be forfeited to Government.

4. The necessary alteration in the rules will be duly notified.

Government Proceedings No. R. 9038-47, dated 22nd March 1916, amending the rules relating to compensation payable for prospecting and mining operations in forest areas.

Order No. G. 3025-6—Geol. 76-15-2, dated 30th August 1916.

Government are pleased to direct that Rule 9 of the Rules for the conduct of prospecting and mining operations in forest lands as published in the Appendix to the rules for the grant of exploring and prospecting licenses and mining leases in Mysore, issued under Government Notification No. G. 15407—Geol. 5-15-5, dated 12th May 1916, be modified in accordance with the Government Order read above.

Rule 9 will accordingly read as follows:—

The licensee or lessee shall:—

(*a*) pay a lumpsum compensation for damage and disfigurement of the surface on all areas operated upon or cleared, at the following rates:—

(1) In State Forests, reserved lands or in District Forests which have been specially brought within the scope of these rules.	(i) Rs. 100 per acre for high and pole forests. (ii) Other forests including scrub Rs. 50 per acre.

(2) For railways and tramways, and for roads on which traction engines are used, at the foregoing rates.

(3) For ordinary cart-tracks and foot-paths, at the rate of Rs. 25 per mile.

(*b*) undertake not to cut sandalwood except with the permission of the Forest Department and on payment of an extra charge to be fixed by the Conservator and

(*c*) make over to the Forest Department all the trees felled in the area operated upon.

N.B.—The decision of the Conservator of Forests as to whether any particular forest is high pole or scrub shall be final.

RULES FOR THE GRANT OF LICENSES TO SEARCH FOR, COLLECT AND REMOVE CORUNDUM WITHIN THE STATE OF MYSORE.

Applications for licenses to search for, collect and remove corundum within the State of Mysore shall be made to the Director, Department of Mines and Geology, Bangalore, in Form No. 1 hereto appended.

2. The area to which each license applies shall ordinarily comprise a whole taluk, but smaller areas may be granted in special cases.

3. Every license granted under these rules will be for a period of one year and will be in Form No. 2 appended hereto. It shall be within the discretion of Government to renew a license from year to year if satisfactory work is done and to impose such special terms for the renewal as they may think desirable.

4. The royalty to be paid by the licensee shall be Rs. 4 per candy (850 lbs.) of corundum removed. This rate is liable to alteration from time to time, due notice of which will be published in the official Gazette.

5. Every licensee shall be required to guarantee a minimum amount of royalty for the term of the license at the rate prescribed under Rule 4.

6. Every application shall be accompanied by a fee of Rs. 10 which will be returned to the applicant if the license is refused.

7. Every applicant shall state in his application the minimum amount of royalty he is prepared to guarantee for the term of the license as required by Rule 5 and the application must be accompanied by a deposit of the amount of the minimum royalty offered to be guaranteed which will be held as security for the due fulfilment of the provisions of these rules and of the terms of the license and, subject to any deductions in this respect, shall be returnable to the licensee after the termination of the license.

8. If the Government decide to grant a license, the Director, Department of Mines and Geology, will inform the applicant of their decision and of any special terms which it may be considered desirable to impose.

9. If the application is rejected or if the applicant within such time as may be specified declines to accept any special terms of which he has been informed, the fee and deposit paid with the application will be returned.

10. Until the license is signed by the Director, Department of Mines and Geology, the applicant shall not be entitled to exercise any of the privileges of a licensee.

11. No corundum shall be removed without a written permit from the Amildar of the Taluk. When the licensee wishes to remove any corundum which has been collected, he shall forward to the Amildar a statement showing the amount of corundum to be removed together with the royalty due on the total amount and request permission to remove this amount from the place where it lies to some specified destination. The Amildar may thereupon grant the permit required, taking any steps which he may consider necessary to satisfy himself of the correctness of the amount to be removed.

12. In case of more than one application being received for any area, the Government may at their discretion call for tenders and grant the license to the applicant whose tender may be considered most advantageous and satisfactory.

13. The Government reserve to themselves the power of refusing to grant a license to any person without assigning a reason or to impose such special terms as they may in their absolute discretion think desirable.

14. The licensee shall not assign his license or transfer any right or interest thereunder to any person except with the previous consent of the Government in writing.

15. A licensee may obtain a duplicate copy of his license from the Director, Department of Mines and Geology, on payment of a fee of Rs. 5.

16. Except as provided under Rule 9, if the applicant declines to accept a license which has been offered to him under Rule 7, his application shall be cancelled and the fee paid therewith forfeited to Government and the deposit received with the application or any portion thereof is also liable to be forfeited at the discretion of Government.

17. If the applicant withdraws his application before the orders of Government thereon are communicated to him, the fee and the deposit paid therewith under Rule 7 shall be liable to be forfeited to Government.

SCHEDULE.

District	Taluk	Area

No. G. 2825-6—Geol. 8-15-5, dated 28th August 1916.

Terms and Conditions.

1. This license confers on the licensee exclusive right and liberty to search for, collect and carry away, as and for his own use, any or all of the corundum in the licensed area, but is subject to any vested interests and to any rights and liberties which have been granted, or which may be granted at any time during the currency of the license by Government in the said area or in the minerals, stones or rocks therein contained.

2. All operations shall be conducted in accordance with such regulations as the Government may from time to time prescribe.

3. In the course of operations, no occupied or private lands or lands comprised in mining leases or prospecting licenses shall be entered upon or disfigured, except with the sanction, in writing, of the occupant, owner, lessee or licensee thereof.

4. The licensee shall not cut or injure any tree on unoccupied or unreserved land except with the permission in writing of the Deputy Commissioner.

5. The licensee shall not without obtaining the sanction, in writing, of the District Forest Officer upon such conditions as that officer may in his absolute discretion prescribe enter upon or exercise any of the rights and liberties under this license in any State Forest or land under special protection.

6. The licensee shall abstain from all interference with the free use of any tanks, water courses, sacred groves, burial grounds or village sites for houses, which may now exist in the said area, and in no way obstruct any road, path or by-way, of any kind whatsoever, in the said area, and will not do anything which may directly or indirectly injure in any way any occupied lands, villages, houses or trees whether in the said area or adjoining thereto.

7. The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by this license and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

8. The licensee may turn up the surface of the ground or make excavations to such depth as the Deputy Commissioner may allow.

9. No excavation may be made exceeding 10 feet in depth without the sanction in writing of the Deputy Commissioner who may demand a deposit, not exceeding Rs. 100, as security for the fulfilment of the conditions laid down in clause 10 hereof before giving such sanction.

10. On the termination of the license the licensee shall fill up or fence any holes or excavations he may have made to such extent as the Deputy Commissioner may require.

11. A royalty of Rs. 4 per candy (850) lbs. shall be paid by the licensee on all corundum removed by him from the licensed area.

12. No corundum shall be removed from the licensed area without a written permit from the Amildar of the Taluk in which the area is situated. When the licensee wishes to remove any corundum which has been collected, he shall forward to the Amildar a statement showing the amount of corundum to be removed together with the royalty due on the total amount, and request permission to remove this amount from the place where it lies to some specified destination. The Amildar shall thereupon grant the permit required, taking any steps which he may consider necessary to satisfy himself of the correctness of the amount to be removed.

13. If the total royalty paid by the licensee during the term of the license exceeds the amount of the minimum royalty guaranteed by him, the deposit shall be returned to the licensee upon the termination of the license; on the other hand, if the royalty paid during the term of the license is less than the guranteed minimum, the deficit shall be made good from the amount deposited as minimum royalty.

14. The licensee shall keep proper accounts of all work carried on and of the quantity and value of corundum collected and disposed of, and shall furnish, within one month of the end of every quarter to the Director, Department of Mines and Geology, a statement showing the quantity of corundum collected and removed by him during the quarter, the places from which it has been collected, the places to which it is exported, the amount of royalty paid on the quantity removed and the gross sale value thereof.

15. This license shall not be assigned, nor any right or interest hereunder transferred without the consent in writing of the Government.

16. The return of the deposit is subject to the due fulfilment on the part of the licensee of the terms and conditions of the license.

Order No. G. 2382-2431—G. M. 224-61-1, dated 21st August 1916.

In supersession of their Order No. Fl. 2015-63—G. F. 100-15-1, dated the 10th November 1915, the Government of His Highness the Maharaja are pleased to sanction the following arrangements regarding the constitution of, and conduct of business in, the Finance Committee:—

(*a*) The Finance Committee will consist of the two ordinary Members of Council, and the Financial Secretary to Government will be the Secretary to the Committee.

(*b*) The Financial Secretary will frame proposals both for retrenchment of expenditure and for growth of revenue.

For this purpose, he may correspond with Heads of Departments and Deputy Commissioners and also undertake local inspections under the special orders of Government.

(*c*) When all the preliminaries are completed and the proposals of the Financial Secretary are ripe for consideration, the subject may be placed before a Sub-Committee composed of the Head of the Department, the Secretary to Government in the Department concerned, and the Financial Secretary who will also be the President of the Sub-Committee.

(*d*) The final proposals of this Sub-Committee should be placed before the Finance Committee who will thereupon record their views for consideration in Council.

2. The Finance Committee may hold any further inquiry that may be deemed necessary, and may summon at its meeting any officer of the department concerned to elicit and record his views.

3. Financial Secretary may also be required to undertake the investigation of any subject or subjects, which the Finance Committee, or the Dewan or the Dewan and Member of Council concerned may suggest.

APPENDIX.

Rules for Grant-in-aid.

1. Applications for grants for experimental measures connected with the extension of Primary and Technical Education (such as special classes for the education of adults, special classes for industrial education) may be entertained and disposed of by the Education Committee.

2. Applications for such special grants should ordinarily be made through the District Committee of the District in which the applicant resides. In special cases applications may be made to the Central Committee direct.

3. The District Committees shall have the power to sanction single grants not exceeding Rs. 50.

4. The Education Committee shall have the power to sanction single grants not exceeding Rs. 200.

5. All grants exceeding Rs. 200 shall require the sanction of Government.

6. All grants sanctioned by the District Committee or the Education Committee shall be regarded as tentative and will be available for six months only. They will be continued by the Department if the institutions are found to work satisfactorily.

7. When an institution for which a grant has been given ceases to fulfil the purpose for which it was started all property purchased with the money given by the Committees shall become the property of Government.

8. Each District Committee shall maintain a register of institutions for which grants have been made under these rules, watch their progress from time to time and submit to the Central Committee at the end of each month a full report on the working of each institution. The Central Committee shall maintain a similar register for grants made by it and submit to Government a consolidated report every month.

9. The District Committee and the Central Committee shall, as soon as they sanction a grant, forward a copy of the order simultaneously to the Inspector-General of Education for his information, with a statement of the qualifications of organiser of each industrial class for such work.

10. A copy of the monthly reports of the Central and of each of the District Committees on the working of these institutions shall also be sent to the Inspector-General of Education.

Employment of Passed Students of the Mechanical Engineering School, Bangalore.

No. 1470-519—Edn. 65-16-1, dated 18th August 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. 1470-519—Edn. 65-16-1, dated 18th August 1916.

As a large number of students are under training in the Mechanical Engineering School, Bangalore, and the first batch of passed students will be available shortly, Government consider it necessary that some arrangements should be made to meet the requirements of the Railway, Electrical, Water-Supply and Industries and Commerce Departments for new hands, from locally qualified candidates.

2. With this end in view, the Inspector-General of Education is requested to maintain a list of passed students of the said school and furnish the same from time to time to the Heads of the respective Departments. He is also requested to submit proposals for any special training required by the students for a particular department in consultation with the Head of the Department concerned.

3. In making appointments in the departments referred to, preference should be givin to local men and to students passing out from local institutions.

4. The Inspector-General of Education is requested to submit half-yearly reports showing how far effect is given to the foregoing directions from time to time.

Programme of the Work of the Director of Sericulture.

No. 1146-55—A. & E. 29-16-2, DATED 4TH AUGUST 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 8, dated the 3rd July 1916, from the Director of Sericulture, submitting his programme of work for 1916-17 indicating the line of action he considers advisable.

(Printed as annexure.)

Order No. 1146-55—A. & E. 29-16-2, dated 4th August 1916.

Recorded and approved with the following observations:—

(i) *Channapatna Farm.*—Government are anxious that the Farm at Channapatna should be suitably developed. The Director may propose the necessary arrangements for placing it on a proper basis and working it efficiently. The estimate should be expedited.

(ii) *Distribution of disease-free eggs.*—Government attach a great deal of importance to this branch of work and await the definite proposals promised by the Director.

(iii) *Silk reeling.*—Government have no objection to the Director concentrating his attention on the extension and improvement of rearing and deferring experiments with improved filatures until machinery becomes available, but having regard to the large number of people employed in reeling in the State and the fact that the local demand for raw silk is confined to silk reeled by the indigenous methods, Government consider that the improvement of the indigenous system of reeling silk should also receive attention. The same remarks apply to the Director's suggestions regarding doubling and twisting which processes are now carried on entirely for the benefit of local weavers. In this connection the attention of Signor Mari is invited to the observations of Mr. Maxwell Lefroy, Imperial Silk Specialist, communicated separately to the Director.

(iv) *Co-operation.*—Government have already directed the Secretary to the Agricultural Committee and other officers to render to Signor Mari any assistance which he may require. The Director will doubtless meet the Deputy Commissioner of each district in which sericulture is practised and come to a definite understanding with him as to the lines on which development would be attempted in each local area and furnish a separate report to Government in the matter.

(v) *Private nurseries.*—Government contemplate no interference with seed prepared by raiyats. What is intended is that as it will be very long before the Government Farms are able to supply all the demands of the raiyats for seed, it is essential that the Department should render to the raiyats such advice and assistance as may be necessary in checking the use of diseased seed. Facilities should therefore be provided to raiyats who desire to get their seed examined.

(vi) *Experimental work with European eggs.*—Government have no objection to these experiments being tried on a limited scale provided they are carried on, under conditions of complete control and adequate attention is paid to the improvement of indigenous breeds.

(vii) *Taluk Schools.*—Detailed proposals will be awaited regarding the taluk schools proposed. The Director is also requested to visit the Tata's Silk Farm

which is receiving a Government grant periodically and favour Government with his views as to the work done in the Farm.

(viii) *A quarterly programme.*—The quarterly programme was merely intended to help the Government in taking stock of work done and in measuring the results achieved. The Director may, however, substitute for it a quarterly progress report of work done and submit it on the 15th of the next quarterly month.

No. 1146-55—A. & E. 29-16-2, DATED 4TH AUGUST 1916.

No 8, dated 1st—3rd July 1916, from Washington Mari, Esq., Director of Sericulture in Mysore, Bangalore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Departments of Education and Agriculture, Bangalore.

With reference to Government Order No. 24-73—A. & I. 62-15, dated the 14th June 1916, and your letter No. 7726—A. & I. 62-15, dated 30th June 1916, and in continuation of my letter No. 16, dated the 17th June 1916, I have the honour to submit for the approval of Government my programme of work for 1916-17.

In regard to the various points dealt with in Government Order under reference I beg to indicate below the line of action at present consider advisable.

Para 4.—(1) *Development of Channapatna Farm and making that and other Farms self-supporting.*—Government have already sanctioned the construction of a Rearing School at Channapatna at a cost of Rs. 3,300. The Executive Engineer has prepared a revised estimate which will be submitted to Government for orders. As requested by the Executive Engineer the necessary steps have been taken to place him in possession of the site with a formal declaration of unconditional gift of the lands to Government from Mr. Abdul Quddus. I shall do my best to make the Farm self-supporting, but cannot commit myself to a definite promise, as a good many arrangements for which I am not responsible have already been made.

(2) *Distribution on a large scale.....of disease-free eggs.*—The existing buildings and the staff of the Department are altogether inadequate for the manufacture of disease-free eggs on a very large scale. Difficulties to transport also render it impossible to supply demands from all parts of the State from one grainage, as the time available for distribution, *viz.*, the period between laying and hatching, is very limited in the case of multivoltine silk-worms. I have dealt with the question of establishing grainages in my programme submitted herewith and shall make definite proposals in due course after studying local conditions.

(3) *Improvement of indigenous systems of rearing and reeling silk worms.*—This subject has been dealt with in my programme.

In regard to reeling I am convinced that no half measures would be of the least use. What is required is the introduction of thoroughly up-to-date methods and appliances, and gradual abandonment of the crude and obsolete methods now in vogue. As under present conditions it will probably be some time before suitable machinery can be imported, we may with advantage turn all our energies to extend and improve rearing, so that when we are able to command machinery we may start reeling on a really profitable and commercial scale.

(4) *Efficient supervision of Government and aided sericultural Farms.*—For some time to come, the organisation of work will require the major part of my time and attention, and I request that the Secretary to the Agricultural Committee may kindly render such assistance as I may require. As indicated in the programme, the supervision of private and aided farms will constitute one of the most important duties of the men in charge of the Taluk Rearing Schools. I shall of course do all the supervision work that I can possibly accomplish.

(5) *Training of local men.*—This will be attended to in the Taluk Schools.

(6) In regard to establishment of filatures, please see observation under (3).

(7) *Improving the local variety of silk-worms.*—This subject has been dealt with under grainage and seed in my programme.

(8) *Increasing the out-put of cocoon, etc., and introduction of sericulture in new areas.*—Has been dealt with under rearing houses.

(9) *Improvement of mulberry cultivation.*—This has also been dealt with under mulberry.

(10) *Bulletins and Statistics.*—Monthly reports of work done will be published in the shape of bulletins.

A statistical statement comparing the figures for the year with those of the previous year, under various essential heads will be published annually.

Para 5.—So far as my knowledge extends, there are no private "nurseries" in Mysore for the supply of seed to raiyats. The proposed examination of raiyats' seed would be practicable only if they were organised private grainages, following the Cellular system. The manufacture of disease-free eggs is a complex process of which microscopic examination is only a part. I would therefore deprecate Government interference with seed prepared by raiyats, as such interference, while most probably useless, would throw a most serious responsibility on the Government institution carrying out the so called examination.

Para 6.—Improvements in doubling, twisting and preparing the silk for the looms would best be undertaken along with the establishment of up-to-date filatures as these processes cannot be disjoined from reeling.

Para 7.—In regard to administrative control of my work, I have already stated very distinctly in my letter No. 16, dated the 16th June 1916, that I am not prepared to work

No. 1146-55—A. & E. 29-16-2, dated 4th August 1916.

under the Secretary to Government, Departments of Education and Agriculture. If Government do not consider the arrangement proposed by me in that letter possible, I am willing to work in direct subordination to Government, like other Heads of Departments.

Paras 8 and 9.—I agree to these paragraphs.

Para 10.—No opportunity will be neglected of popularising the work of the Department. I shall freely avail myself of the co-operation of the Agricultural Committee, as can be seen from the fact that I have requested that the Secretary of the Agricultural Committee may help me in compilation of statistics.

Para 11—I shall be glad to get a co-operation of the officers mentioned in this para.

Para 12—Monthly report of work done will be submitted to Government as required. As sericulture deals with processes which take some time, and also the entire work of organization has to be done at the outset, a quarterly programme seems to be neither practicable or valuable. I submit herewith my general programme for the whole year, which is so comprehensive that it would be a great satisfaction to me, as well as a great gain to Government if I could work it out by the end of the year. The extent of success will depend on the support of Government as well as the sympathetic co-operation of the people in my work: I can only assure Government of my most earnest endeavours to secure that result.

Programme of Work for Introducing Rational Sericulture in the State for 1916-17.

During 1916-17 attention will be devoted to increasing the area under mulberry, improving the existing rearing rooms and getting new ones built, and providing an adequate supply of good silk-worm seed.

Mulberry.—As an abundant supply of good mulberry leaves is the very foundation of sericulture, the improvement and extension of mulberry cultivation must be the starting point in any attempt to develop this industry, and according this will form one of the principal items on the programme of the Department.

For this purpose it is deemed necessary to attach a mulberry garden to each Taluk Rearing School, not only for conducting experiments for selecting varieties, etc., but also to serve as model to raiyats and afford scope for practical instruction to students.

Rearing houses.—For developing and rationalising sericulture it is necessary that the existing rearing rooms should be improved as far as possible and that a large number of new rearing houses should be built on approved models. This requires the adoption of a vigorous propagandist policy and the creation of facilities and inducements in the shape of loans and prizes. It will be necessary to have rearing schools throughout the State provided with a staff which can be trusted to carry on diligent propagandist work among the raiyats. This will be dealt with later in this report. It would be advantageous to hold frequent Taluk and District Exhibitions for sericultural products as well as an annual Provincial Exhibition on a large scale.

Grainage and seed.—Suitable arrangements will be made to establish grainages at places which present favourable conditions for the production of good seed. In the absence of accurate data the location of these grainages must necessarily be tentative to start with and may have to be altered from time to time in the light of knowledge derived from experiments.

It is important that regard must be had also to their convenience of situation as centres of distribution since in some parts of the State transport is slow and distribution has to be completed within the period elapsing between laying and hatching which in the case of multivoltine races is very limited.

It is also intended to do experimental work with European eggs. Though some very successful experiments were conducted with European eggs at Channapatna in 1914, it is deemed necessary to conduct further experiments for determining whether foreign eggs could with advantage be introduced in Mysore. I am convinced that further experiments will confirm my opinion that the introduction of foreign breeds, as a supplement to the local breed, will be a boon to Mysore, and that a comparison of the results of the experiments will be the most convincing argument for the step as well as the most eloquent refutation of the prejudicies of persons who are opposed to it. To facilitate comparison European and indigenous breeds will be reared side by side under similar conditions. I should not be taken to mean that foreign breeds can be acclamatised in Mysore. On the contrary experiments made by me and others under varying conditions in Mysore have shown that even in the coolest parts of the State they deteriorate very rapidly, this result being evident in a single generation. Even in Kashmire, the climate of which approximates to that of the south of Europe, attempts to acclamatise European breeds have invariably failed, though beautiful cocoons are reared with imported seed every year.

No. 1146-55—A. & E. 29-16-2, DATED 4TH AUGUST 1916.

For reeling European cocoons local mechines are unsuitable and the best results can only be got, with both European and Mysore cocoons, only by the employment of up-to-date machinery.

Taluk Rearing Schools.

Location.—It is intended to establish for the present Taluk Schools at the following places :—

Channapatna,
Sidlaghatta,
T.-Narsipur,
Kunigal,
Bangalore,
Mysore,
Kolar.

These places have been selected in consulation with the Secretary of the Agricultural Committee. At T.-Narsipur the existing Government Rearing House will be used as a school. At Mysore the present building when suitable altered and provided with a tiled roof would do tolerably well. At Channapatna a building has been already sanctioned by Government. New buildings will be necessary at Bangalore, Sidlaghatta and Kunigal. At the last named place a site has already been selected by the Agricultural Committee. In regard the other two, proposals will be furnished after inspection.

Staff.—A detailed report containing specific proposals will be submitted in due course on the subject of the staff necessary for the work of these schools. The idea is to make them centres of instruction as well as of active propagandist work. The men in charge will be expected to extend the usefulness of these schools by touring in the villages for instructing sericulturists, supervising their operations and guiding them in the adoption of rational methods. They should collect oders for disease-free seed and also make themselves useful to raiyats in the purchases and sales and other transactions to their occupation, and eventually safeguard their interests from unscrupulous persons seeking to take deceitful advantage of their ignorance.

Good work should be rewarded by the grant of annual prizes, and unsatisfactory officials punished by degradation or dismissal. Their work will be estimated with the help of accurate statistics which will be annually taken and about which a separate note will in due course will be furnished.

Powers of the Director of Sericultrue.

Government Order No. Camp. 24-73—A. & I. 62-15-21, dated 14th June 1916, defining the duties of the Director of Sericulture.

Order No. 1222-3—A. & E. 30-16-1, dated 8th August 1916.

Paragraph 7 of the Government Order read above will be altered as follows :—

"For purposes of administrative control the Director of Sericulture will be directly under Government."

2. The Director of Sericulture will exercise the following powers in regard to appointments and contingent expenditure.

(i) To make appointments and transfers of all sericultural staff in the sanctioned scale when the pay does not exceed Rs. 30 per mensem, other cases being reported to Government for sanction.

(ii) To grant leave to the establishment under him and to the sericultural staff when no extra expenditure to Government is involved.

(iii) To select students for scholarships, to distribute them for training in the various farms and to arrange for the completion of the course, any alterations in the existing scale of scholarships being subject to the sanction of Government.

(iv) To incur expenditure within the budget provision under office expenses, purchase of books, journals, appliances and other items of a contingent nature up to a limit of Rs. 20 in each single case.

(v) To incur expenditure within the budget provision for the preparation of bulletins.

(vi) To incur expenditure not exceeding the budget provision under cost of mulberry leaves, etc., subject to a maximum of Rs. 100 per month per farm for each of the existing farms, Government sanction being obtained in other cases.

3. The Director is requested to make a suitable allocation of the entire sericultural staff now attached to his department according to existing requirements and submit the same for the approval of Government. A list of persons to whom scholarships are awarded with their qualifications should be forwarded for the information of Government. A report should also be made of the results of training of the selected candidates at the end of the course.

4. The improvement or closing of existing farms, the opening of new farms and the entertaining of additional establishment will be subject to the sanction of Government. The budget provision under construction of model rearing houses should also not be utilized without previous sanction. A half-yearly statement of receipts and expenditure on each of the Government farms should be submitted for the information of Government.

5. The detailed contingent bills and the travelling allowance bills of the Director will be submitted to Government for countersignature as in the case of the Registrar of Co-operative Societies, the Superintendent, Government Gardens and other officers.

Order No. 1300-11—A. & I. 56-15-107, dated 10th August 1916.

Government direct that the rule under reference be modified as follows:—

"No loan exceeding Rs. 2,500 shall be granted without a local enquiry, which shall be held by a Special Officer attached to the Department of Industries and Commerce for that purpose. The result of his enquiry will be reported to the Director of Industries and Commerce whose subsequent action in dealing with the application will be determined by the nature of the report as to the value of the security rendered. In dealing with applications for loans connected with agricultural purposes, the Director will obtain and place on record the opinion of the Deputy Commissioner of the District where the loan is to be utilised.

In cases of loans for less than Rs. 2,500 the enquiry will be referred to the Deputy Commissioners, who will cause the necessary enquiries and investigations to be made by the District Economic Superintendents, or other officer of not lower rank subordinate to them, and forward the report received to the Director of Industries and Commerce with their own opinion. The Deputy Commissioners are requested to see that all such enquiries and investigations as are referred to by the Director are completed without delay."

Government Order No 1592-1—A & I. 90 15-3, dated the 13th March 1916, sanctioning the grant of certain concessions to merchants who undertake to travel abroad with a view to acquire industrial and commercial knowledge.

Letter No A , dated Mysore, the 10th June 1916, from the Secretary, Industries and Commerce Committee, forwarding the names of six merchants selected by the Committee, prepared to proceed to Japan under the concessions granted by Government.

Order No. 1325-31—A. & I. 90-15-22, dated 12th August 1916.

Government are pleased to sanction the deputation of the following merchants to Japan :—

1. Mr. B. Narasimha Murthi Rao, Merchant and Commission Agent, Bangalore.
2. Mr. P. M Basappa, General Merchant, Bangalore.
3. Mr Tubigere Nanjappa, Mandi Merchant and Special Magistrate, Bangalore.
4. Mr. J. Chinnappa, Merchant and Honorary Magistrate, Tumkur.
5. Mr. B. Rangiah, Cloth Merchant, Mysore.

For each merchant a sum sufficient to cover the expenses of the journey will be sanctioned, subject to a maximum of Rs. 2,500 in each case, half of which will be treated as a free grant and the other half as a loan repayable under the order read above.

The merchants should be clearly informed that no additional assistance will be afforded and that Government take no responsibility for any engagement entered into or expenses incurred by the merchants on their own account.

2. Government are also pleased to depute Mr. P. Gopalaraj Urs, Probationary Assistant Commissioner, and Mr. R. Ananthasubramanyam, District Economic Superintendent, Bangalore, to accompany the merchants. The period of deputation will be from four to six months.

3. The Secretary, Industries and Commerce Committee, will prepare a rough programme of work for each merchant in consultation with the Director of Industries and Commerce. Copy of the programme should be obtained and submitted for the information of Government.

4. Similarly a programme of work should be drawn up for the guidance of the officers accompanying the merchants. A diary should be submitted every month of the work done by the officers to the Secretary, Industries and Commerce Committee, who will forward the same with his remarks to the Secretary, Economic Conference. A brief reference should be made in the diary of the enquiries made and information collected by the merchants.

5. The officers deputed will be given in addition to their present emoluments a second class passage to and fro and a lump sum allowance of Rs. 200 per month to meet their travelling and other expenses.

6. The Secretary, Industries and Commerce Committee, should arrange to obtain in consultation with the Comptroller, the necessary security bonds from the merchants intending to take loans.

No. 1325-31—A. & I. 90-15-22, DATED 12TH AUGUST 1916.

7. The portion of the advance to be treated as loans will be met out of the ways and means estimate and the other portion for the present, out of the budget of the Economic Conference. The cost of the deputation of the officers will be debited to the provision made in the general budget for deputation of officers to foreign countries.

8. The Comptroller will make necessary arrangements to advance to the parties any sum that may be required here for their outfit, travelling and other charges, and also arrange through the Bank of Mysore for periodical payments in Japan of sums that may be required there.

Government Proceedings No. 2139-40—Muz. 482-09, dated 24th February 1910, sanctioning an expenditure of Rs. 136-10-0, during the car festival of the Sri Anjaneyaswami temple at Kadlabalu, Davangere Taluk.

2. Letter No. 509, dated 13th April 1916, from the Deputy Commissioner, Chitaldrug District, stating that the order does not provide for Nandadipam and periodical utsavams and that the income of the temple has since improved, and submitting for sanction a revised scale of receipts and expenditure for adoption in the temple.

Order No. 606-8—Muz. 577-15-2, dated 29th August 1916.

The income from the inam lands endowed to the temple and the interest realized on the pudwat funds are now estimated to yield Rs. 177-8-0 per annum and with the cash grant of Rs. 42-7-0, the total income amounts to Rs. 219-15-0. The proposed scale of expenditure, while providing for the usual expense of Rs. 136-10-0 on the car festival, makes provision for other necessary items using up the whole income without leaving a reserve for annual repairs.

2. As Government consider that some reserve on this account is quite necessary, the provision of Rs. 115 shown against (9) "Rathothsavam and for feeding charges in that connection" in the proposed scale will be reduced to Rs. 100 the amount thus saved being treated as a reserve for repairs or other extraordinary calls.

3. The scale thus revised and appended hereto providing for an expenditure of Rs. 204-10-0 against an income of Rs. 219-15-0 per annum is sanctioned.

4. The Deputy Commissioner's suggestion in regard to the delegation to himself of the power of sanctioning and revising scales of income and expenditure in minor Muzrai institutions will receive separate attention.

Government Proceedings No. 1352-4—Muz F. 49-03, dated 21st November 1903, sanctioning at the instance of Mr. D. Appu Rao, retired Deputy Superintendent of Revenue Survey, the assumption of management of the temple of Sri Pranadevaru, built by him in Bommagondanakere, Molakalmuru Taluk, and its endowment.

2. Letter No. 1692, dated 26th April 1916, from the Muzrai Superintendent in Mysore, recommending the acceptance of a proposal by Mr. D. Appu Rao to convert the 3 per cent Government Paper into cash and its re-investment with Government as a permanent deposit carrying a favourable rate of interest.

Order No. 554-7—Muz. 686-15-2, dated 22nd August 1916.

At the time the management was handed over, Mr. Appu Rao had invested an endowment to the temple in Government of India Pro-notes carrying 3 per cent interest and of the face value of Rs. 2,000. The securities were endorsed in favour of the Dewan and a scale of expenditure up to the limit of the interest was sanctioned.

2. Mr. Appu Rao now feels that the income is by no means sufficient to meet the requirements of the temple and wishes to increase the endowment to Rs. 3,000 and change the nature of the securities. He accordingly proposes that the Government Paper now held for the benefit of the temple may be sold at the current market rate and that the proceeds together with the amount now presented by him may be accepted by Government as a permanent deposit yielding a favourable rate of interest under the rules published with Government Notification No. Fl. 473-503—G. F. 15-09-2, dated 15th July 1909. He has accordingly presented Rs. 1,520 which, with Rs. 1,480 the proceeds of the transfer of the Government Paper at a discount of 26 per cent will make up Rs. 3,000, the minimum required under the rules. The Muzrai Superintendent recommends that the securities may be transferred at this rate to Sri Anjaneyaswami temple at Kyamenahalli in the Koratagere Sub-Taluk, which has a large cash balance at its credit.

3. In the circumstances of the case, the Government are pleased to sanction the transfer of the securities in question and to accept the sum of Rs. 3,000 now tendered as a permanent deposit at the favourable rate of 4 per cent interest. The Comptroller to Government is requested to transfer the Pro-notes in question at the said rate in favour of the Sri Anjaneyaswami temple at Kyamenahalli. The balance required to make up the amount will be produced by the Muzrai Superintendent at the District Treasury, Bangalore. The formality of the depositor executing a document may be waived as the temple for whose benefit the deposit is made, is under the management of Government.

4. The Muzrai Superintendent is requested to submit a revised scale of income and expenditure for use in the temple.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 1 of 1915-16.

Appellant	*vs.*	*Respondent*
Swamigalu of Sri Munivrinda Matha at Bhimanakatte.		Rama Ithal, son of Subba Ithal

Subject.

Right to appoint the Archak of Sri Gangadhareswara Swami temple at Bhimenakatte in the Tirthahalli Taluk.

ORDER.

Document of Krodhana Samvatsara executed by Anniah and Gangadhariah in favour of the Matha.

On a perusal of the records of the case and after hearing the parties, the Government see no reason to question the correctness of the decision arrived at by the Deputy Commissioner. Exhibit B, upon which (among other things) the Swami relies, does not assuming it to be a genuine document establish his right to appoint the Archak of the temple as claimed, much less to appoint one who is not a worshipper of the God Siva. The right of Rama Ithal to perform the puja as Archak has been established, and the remuneration of Rs. 2 a month awarded is moderate and also in accordance with the scale of expenditure fixed by the Deputy Commissioner in his Order No. 779, dated 9th December 1910, after making enquiry of the Matha's Agent. If, as a matter of fact, the scale is in excess of the income of the lands that are attached to the temple and of which Swami is in management, it is open to him to approach the Deputy Commissioner and get the scale reduced to the extent of the actual income. Till this is done, the scale already fixed must be given effect to. The appeal is dismissed.

Memo No. 435—Muz. 308-15-8, dated 9th August 1916.

Copy of the above is forwarded to the Deputy Commissioner, Shimoga District, together with the entire records forwarded with his letter No. 330—Muz. 63, dated 9th February 1916.

6. To enable the Director to obtain supplies of sandalwood and fuel required by him he will intimate to the Conservator of Forests from time to time the quantity of sandalwood and fuel so required, and that officer will make the necessary arrangements for supplying the same. The sandalwood will be charged at the average rates realised at the sales each year and firewood at a rate to be fixed in consultation with the Conservator of Forests and reported to Government.

7. As regards accounting, the total amounts drawn from the Treasury in connection with the Factory, whether on account of establishment or contingencies, construction of buildings or purchase of machinery and installation thereof, etc. will be debited to an advance account, to be adjusted eventually from the receipts of the Factory which will also be credited under the same head. Interest at 4 per cent will be charged on the debit balance outstanding against the Factory at the end of each quarter and added on to the advance account, and after the whole advance together with interest is adjusted, the net receipts under the advance head will be carried to the credit of Government as the profits of the concern.

8. The accounts of the Factories in Bangalore and Mysore will be regularly audited by the Commercial Auditor attached to the Comptroller's Office at the end of each half-year and a correct balance sheet submitted for the information of Government through the Director of Industries and Commerce in Mysore.

9. The Director should submit a quarterly report on the progress of work in connection with the Mysore Factory before the close of the month following each quarter.

CONFIDENTIAL. **Sandalwood Oil Factory at Mysore.**

No. 1255-7—I. & C. 10-16-11, DATED 9TH AUGUST 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. 53-58—A. & I. 80-15-13, dated 30th October 1915, sanctioning the proposals of the Director of Industries and Commerce in Mysore for starting an experimental Sandalwood Oil Factory at Bangalore.

2. D. O. letter No. 396, dated 27th July 1916, from the Director forwarding a copy of the proceedings of the Sandalwood Oil Board and proposing that a sum of two lakhs of rupees be placed at his disposal for erecting a Sandalwood Oil Factory at Mysore.

3. Government Order No. 983-7—A. & I. 80-15, dated 31st July 1916, defining the powers of the Director and the Board in the management of the Sandalwood Oil Factory at Bangalore.

Order No. 1255-7—I. & C. 10-16-11, dated 9th August 1916.

From the experiments carried on in the experimental Sandalwood Oil Factory at Bangalore, the Sandalwood Oil Board is of opinion that it would be advantageous to undertake the construction of a larger factory with an output of from eight to ten thousand pounds of oil per month and that it may be extended eventually so as to double the initial output.

2. Government agreeing with the Board are pleased to order that the construction of this factory be taken up at once on a suitable site in Mysore near the Kukkerhalli tank. The question of constructing a light railway to facilitate the supply of fuel from the Kakankote forests to the factory will be reserved for further consideration.

3. An advance of 2 lakhs of rupees is sanctioned for the construction and equipment of the Mysore Factory. As the entire cost of the Factory is likely to be recovered from its profits within two or three years, the outlay will be treated as an advance account under a debt head. The Director is authorised to place an order for all articles of machinery urgently required, forwarding a list thereof to Government and furnish detailed estimates with plans for buildings, equipments, etc., in due course for the sanction of Government. The rules laid down in the Government Order defining the powers of the Director and the Board will be applicable in all respects to the Mysore Factory.

4. As regards establishment, the Director may send in his proposals with the opinion of the Board thereon as needed from time to time. As far as possible, this establishment should be recruited locally and the conditions of employment will, as in Bangalore, be that all appointments will be temporary and made according to actual requirements, sanction of Government being obtained for the continuance of the establishment actually required, from year to year.

5. The funds required for the construction and working will be drawn by the Director on abstract contingent bills under the rules for contingent expenditure and accounted for on detailed contingent bills, in the usual course. As in the case of the Bangalore Factory, all bills relating to this Factory will be audited on the day of their receipt in the Comptroller's office and no avoidable delay should be allowed to occur in passing them, objections, if any, being taken after audit. The Director will, however, answer the audit objections within a week, obtaining the sanction of Government, if necessary, where a deviation from the established rule or practice is pointed out by the Comptroller and found to be inevitable having regard to the nature of the business. The accounts and vouchers should be carefully maintained so that local audit may be made under orders of Government from time to time.

Correspondence ending with letter No 3337, dated the 23rd June 1916, from the Secretary, Mysore Economic Conference, forwarding letter No. 3101, dated the 21st June 1916, from the Secretary, Industries and Commerce Committee, regarding the provision of suitable hotel accommodation in the Cities of Bangalore and Mysore.

Order No. 1726-75—A. & I. 239-14-10, dated 26th August 1916.

With a view to induce private enterprise to come forward to open high class Indian Hotels in the Cities of Bangalore and Mysore, where the want of such hotels is keenly felt, the Industries and Commerce Committee have recommended the grant of certain concessions. Government have considered these proposals and are now pleased to direct that the following concessions and facilities be granted to encourage private enterprise in this direction:—

(i) A contribution not exceeding Rs. 100 per mensem towards the rent of a suitable building to be engaged for the purpose in the Bangalore City, until the realizations are sufficient to meet this charge, subject to a maximum period of two years.

The Mysore hotel may be located for a similar period in the Representatives' Home at Mysore free of rent, subject to accommodating the Representative Assembly Members during the Dasara.

(ii) An advance of Rs. 2,000 for the purchase of necessary articles of furniture required for each hotel which will remain as the property of Government till the advance is repaid.

(iii) A loan of Rs. 1,000 on proper security at 6½ per cent interest per annum for preliminary expenditure.

(iv) The loan and the sum advanced for furniture should be repaid within five years the 1st instalment commencing two years after the starting of the hotel.

2. The Industries and Commerce Committee may appoint local Committees for supervision.

3. The Industries and Commerce Committee is requested to notify these concessions and take necessary action, should applications be forthcoming from competent persons. A report should be submitted to Government on the result of the action taken.

4. The Secretary, Mysore Economic Conference, will be requested to place the necessary funds required during the current year from the budget grant of the Economic Conference.

Free Allowance of Water for the Bangalore and Mysore Jails.

No. 1788-800—P. W. 8739-51, DATED 23RD AUGUST 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

Correspondence ending with letter No. 698, dated the 15th April 1916, from the Inspector-General of Prisons, regarding the free allowance of water for the Bangalore and Mysore Jails.

Order No. 1788-800—P. W. 8739-51, dated 23rd August 1916.

The free water-supply given to public institutions till the 1st July 1913, was ordered in the marginally noted Government Orders to be stopped from that date. In pursuance of this order, the question of the quantity of water to be allowed as free allowance or free of charge to the Bangalore and Mysore Jails under the rules regulating house connections has been under correspondence since October 1914, between the Prisons and the Water Supply Departments.

Government Order No. 1458-91—9150-98, dated the 13th November 1912.
Government Order No. 1726-1751—10502-10530, dated the 25th December 1912.

2. There are as many as 18 taps in the Bangalore Central Jail and 3 in the Mysore Jail, excluding those in the residential quarters. A large quantity of water is used for non-domestic purposes also, such as, flushing drains, gardening and industrial undertakings. The average monthly consumption has hitherto been 595,915 gallons in the Bangalore Jail and 258,869 gallons in the Mysore Jail, but the average Jail population is about 800 and 200 respectively, excluding the Jail establishment.

3. In a case like this, where the number of inmates is out of all proportion to the number in an ordinary dwelling house, it is not considered reasonable to calculate the free allowance on rental value of the buildings according to rules. The procedure adopted for hostels attached to Colleges and Schools is therefore recommended for Jails also. Government are pleased to accept this recommendation as a special case (for, as a rule, no free allowance is given where water is used partly for non-domestic purposes) and to direct that free allowance in the case of Jails be fixed as noted below :—

(1) Convicts	6½ gallons per head per day, *i.e.*, half of what is allowed for a free citizen.
(2) Resident members on the Jail establishment who have no separate water connections in their residential quarters.	12½ gallons per head per day, *i.e.*, the same as that allowed for a free citizen.

4. The Water Supply Department should ascertain the strength of the Jail population from time to time, usually once a quarter, and fix the free allowance accordingly. The excess water charges to be paid from the 1st July 1913 to date, after deducting the free allowance fixed as now indicated, should be calculated and adjusted in consultation with the Inspector-General of Prisons, without further loss of time.

Revised Rules for the Regulation of the Water-supply in the Cities of Bangalore and Mysore.

No. 1778-85– P. W. 8725-32, DATED 22ND AUGUST 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

(1) Government Order No. 766-71—5269-74, dated the 29th June 1912.

(2) Letter No. 57, dated the 4th October 1912, from the President, Municipal Council, Mysore City.

(3) Letter No. 98, dated the 29th October 1912, from the President, Municipal Council, Bangalore City.

Order No. 1778-85—P. W. 8725-32, dated 22nd August 1916.

In the Government Order read above, Government sanctioned revised rules for the regulation of the water-supply in the cities of Bangalore and Mysore, while communications (2) and (3) have reference to certain alterations in those rules proposed by the Municipal Councils of the two cities.

2. After a further consideration of the matter, Government are pleased to pass the following orders:—

Proposal	Order
Rule 3.—(By the Bangalore City Municipal Council). The Municipality should not be made to meet the cost of water drawn for watering public roads and flushing drains even at half the cost.	The Municipalities have been treated very generously, as the whole cost of the water-supply project and the greater portion of the annual maintenance charges are contributed by Government. The Municipalities cannot therefore be exempted from paying at least part of the rate for the water required for watering roads, flushing drains and other such purposes. The rule will therefore stand as it is.
Rule 6.—(By the Bangalore City Municipal Council). The minimum distance allowed between every two stand pipes may be 500 feet instead of 600 feet. The existing stand pipes should not be removed without consulting the Municipal Council.	On a full consideration of the *pros* and *cons*, final orders were passed by Government in this matter in Government Order No. 6825-6—Ml. 95-11-4, dated the 21st March 1912. As no fresh reasons are urged for a reconsideration of the decision arrived at, the order already passed should stand. As regards the removal or shifting of existing fountains and the erection of new ones, separate orders have since been passed that all questions relating thereto should be decided by the Municipal Council subject to the final orders of the Chief Engineer. *Vide* G. O. No. 8533-43—Ml. 152-14-5, dated the 6th May 1915.
Rule 10 (a).—(By both Councils). The levy of a meter rent, which is of the nature of a permanent charge, works as a hardship on the poor people that generally consume even less than the full minimum quantity of water allowed by the rules.	This rule has recently been amended providing for a remission of the meter rent in any month in which the total consumption does not exceed the minimum free allowance of 4,000 gallons. *Vide* G. O. No. 1159-64—P. W. 5886—91, dated the 12th June 1915.

No. 1778-85—P. W. 8725-32, DATED 22ND AUGUST 1916.

Proposal	Order
Rule 22.—(By the Bangalore City Municipal Council). Stopping or reducing the supply in any public main or sub-main should be done with previous notice, as, otherwise, there will be great inconvenience to the public.	This rule will be altered as under:— "The Executive Engineer or his authorised agent shall have the power to stop or reduce the supply in any public main or sub-main for repairs or renewals without any notice on very emergent occasions. But in ordinary cases or when the stoppage is over an extensive area or is due to exigencies which can be foreseen, such previous notice as is possible under the circumstances (which, however, will in no case be less than 24 hours), will be given by general tom-tom."
Rule 23.—(By the Bangalore City Municipal Council). This rule which renders public institutions liable to excess water charges should be omitted.	The rule should stand. Where the institutions concerned are unable to pay the excess water charges, the necessary contribution may be obtained from the department of Government concerned, as laid down in Government Order No. 1453-91—9150-88, dated the 13th November 1912. The limit of free allowance to the public, charitable or religious institutions in the Bangalore City has since been suitably raised. *Vide* G. O. No. 3090-46—1663-700, dated the 20th February 1915.

READ AGAIN—

Government Order No. 844-57—4403 16, dated the 29th July 1902, directing that, in the disposal of contracts for tank works to be carried out by the Public Works or other Departments, *where all other considerations* are similar, preference shall be given to persons habitually residing and carrying on business near the locality over those resident at a greater distance.

Order No. 1825-76—P. W. 8877-928, dated 25th August 1916.

Notwithstanding the existence of the order read above, representations are often made to Government that contracts for tank works are not given to persons who own lands in, or are otherwise connected with, the villages concerned.

2. On enquiry, it is found that one cause why local people do not get the works is that their applications or tenders for the same are generally received too late, *i.e.*, later than the date fixed for opening the tenders or settling the contract. This would appear to be due to the fact that the raiyats in the villages do not generally look into the Gazette Notifications calling for tenders. Besides, they are not likely to know whether a tank work has been sanctioned or when work on the same will be taken up for execution.

3. In these circumstances, Government are pleased to direct that the existing order on the subject be supplemented by the following instructions:—

(1) Before the contract for an irrigation or other work in which the local people are interested is given out, the Executive Engineer concerned should send a copy of the notice calling for tenders, or the necessary intimation where no tenders are called for, to the Deputy Commissioner or the Amildar concerned and also a copy direct to the Patel of the village for communication to the interested raiyats, so that they may tender or apply for the work in time.

(2) For work requiring skilled labour, local men may be asked to associate themselves with contractors from outside, if necessary. But the contracts should, as far as possible, be given to influential cultivators or residents of the villages, who are interested in the tank, when all other considerations are similar.

4. The great gain in pursuing such a policy will be that the people will be trained to repair, improve and generally to look after their tanks.
